# Management's Discussion and Analysis of Financial Condition and Results of Operation

(Note: yen amounts are rounded down to the nearest 100 million.)

#### (1) Overview of Results of Operations (Fiscal year ended March 2021)

#### 1. Results of Operations

Economic conditions in the fiscal year ended March 2021 were severely impacted by the global spread of COVID-19. In the commercial vehicle market, global demand fell significantly due to the pandemic, but showed signs of recovery from the third quarter onward.

In this business environment, Isuzu has been working to achieve its mid- to long-term vision set out in the previous Mid-Term Business Plan (FY2019 to FY2021) (hereinafter, the *previous Mid-Term Business Plan*) to become a company that inspires broad admiration for its exceptional CV, LCV, and powertrain products that support human lifestyles.

Specifically, we continued our efforts to build an alliance system. In October 2020, we concluded a basic agreement for a strategic alliance with the Volvo Group in the field of commercial vehicles, and started full-scale collaboration in April 2021. Through this strategic alliance, we will leverage complementary areas of expertise, utilize each company's outstanding technologies and economies of scale, and collaborate on the development of both existing and advanced technologies for commercial vehicles. We will work together to address the future challenges facing the logistics industry, maximizing the value and benefits we provide to our customers and society, and create new value for the commercial vehicle industry.

In addition, in March 2021 we agreed on a new partnership with Hino Motors, Ltd. and Toyota Motor Corporation aiming to solve transportation issues and contribute to the realization of carbon neutrality. By combining Toyota's CASE technologies with the commercial vehicle platform cultivated by the Company and Hino, we plan to accelerate the societal implementation and spread of CASE technologies and services to help address various difficulties facing the transportation industry, which supports the movement of people and goods using commercial vehicles, such as improving transport efficiency, driver shortages, and long working hours. We also aim to contribute to the realization of a carbon neutral society.

In the fiscal year ended March 2021, vehicle unit sales in Japan fell by 10,282 units (14.4%) year-on-year to 61,071 units, reflecting a decrease in total industry volume, although the Company maintained its strong reputation in the light-duty truck segment, with a high market share of 40.8%.

Overseas vehicle unit sales decreased by 44,806 units (10.2%) year-on-year to 393,064 units, owing to a fall in total industry volume, primarily in Asia.

As a result, consolidated total vehicle unit sales in Japan and overseas decreased by 55,088 units (10.8%) year-on-year to 454,135 units.

As a result, the Company's earnings results for the fiscal year ended March 2021 were as follows.

|  | Fiscal year ended March 2021 | Fiscal year ended March 202<br>comparison |         |
|--|------------------------------|---|---------|
| Net sales                                  | 1,908.1                      | (171.7)                                   | (8.3)%  |
| Operating income                           | 95.7                         | (44.8)                                    | (31.9)% |
| Profit before extraordinary items          | 104.2                        | (46.6)                                    | (30.9)% |
| Profit attributable to owners of the paren | t 42.7                       | (38.5)                                    | (47.4)% |

In terms of profit and loss, operating income was 95.7 billion yen, down 31.9% compared to the previous fiscal year, due to the decrease in net sales, despite an improvement in profitability due to cost reduction activities, and progress on reducing expenses.

Profit before extraordinary items was 104.2 billion yen, down 30.9% on the previous fiscal year, and profit attributable to owners of the parent was 42.7 billion yen, down 47.4% on the previous year.

#### 2. Overview of Financial Position

Total assets as of March 31, 2021 stood at 2,244.9 billion yen, an increase of 92.8 billion yen from March 31, 2020.

Liabilities increased by 21.2 billion yen from March 31, 2020 to 1,039.9 billion yen. Net assets increased by 71.6 billion ven from March 31, 2020 to 1,205.0 billion ven.

The shareholders' equity ratio stood at 45.5%, compared with 44.3% on March 31, 2020. Interest-bearing liabilities decreased by 20.1 billion yen compared with March 31, 2020 to 316.5 billion yen.

#### 3. Cash Flows

Cash and cash equivalents (hereinafter referred to as *funds*) as of March 31, 2021 increased by 82.6 billion yen from March 31, 2020 to 386.6 billion yen. Operating activities provided net cash of 222.9 billion yen, while 93.4 billion yen was used for investing activities and 55.2 billion yen for financing activities.

Free cash flows, calculated by deducting investing cash flows from operating cash flows, saw a positive inflow of 129.5 billion yen, an increase of 317.2% from the fiscal year ended March 2020.

#### **Cash Flows from Operating Activities**

Funds provided by operating activities amounted to 222.9 billion yen, an increase of 80.2% yearon-year. This was mainly due to recording inflows of funds of 86.8 billion yen for profit before income taxes , and of 82.3 billion yen for accumulated depreciation, as well as a decrease in inventories of 38.4 billion yen and increase in notes and accounts payable of 15.9 billion yen. These were partially offset by outflows of funds from an increase in notes and accounts receivable of 11.2 billion yen and cash paid for income taxes of 30.6 billion yen.

#### **Cash Flows from Investing Activities**

N Funds used in investing activities amounted to 93.4 billion yen, an increase of 0.8% year-onyear.

This mainly reflected outflows of funds of 97.8 billion yen for payment on the purchase of property, plant and equipment.

#### **Cash Flows from Financing Activities**

Net funds used in financing activities amounted to 55.2 billion yen, an increase of 119.8% yearon-year.

This mainly reflected outflows of funds of 84.8 billion yen for repayment long-term borrowings, 21.4 billion yen for payment of dividends made by the parent company, and payment on dividends to non-controlling shareholders of 16.2 billion yen. Inflows of funds included proceeds from long-term borrowings of 43.3 billion yen and proceeds from bonds issues of 50.0 billion yen.

#### (2) Analysis of Financial Condition and Results of Operations in the View of Management

The following provides an analysis of the Group's financial condition and results of operations in the view of management.

The following information contains forward-looking statements that reflect the judgement of management as of June 25, 2021.

#### Analysis of Results of Operations, etc. for Fiscal 2021

#### (a) Overview

#### CVs

Total commercial vehicle unit sales for the fiscal year ended March 2021 decreased by 44,537 units (18.2%) year-on-year to 200,729 units.

Total industry volume in Japan fell sharply in the first half due to the COVID-19 pandemic. In the second half, total industry volume recovered to almost the same level as the previous fiscal year, but due to the impact of the decline in the first half, vehicle unit sales in Japan for the fiscal year ended March 2021 fell by 10,282 units (14.4%) year-on-year to 61,071 units.

Overseas, total industry volume also declined sharply in the first half due to the pandemic, but the market returned to an overall recovery trend in the second half of the fiscal year. As a result, total vehicle unit sales in Japan and abroad decreased by 34,255 units (19.7%) year-on-year to 139,658 units.

The company's share of the domestic heavy- and medium-duty truck market increased 1.3 percentage points year-on-year to 33.8% due to stable sales. Moreover, the Company's market

share for light-duty trucks decreased by 1.6 percentage points year-on-year to 40.8%, mainly reflecting a surge in the previous fiscal year due to last minute demand ahead of changes in emissions regulations.

#### LCVs

Total LCV sales units in the fiscal year ended March 2021 dropped by 10,551 units (4.0%) yearon-year to 253,406 units.

In Asia, total industry volume fell sharply in the first half of the fiscal year due to the impact of the COVID-19 pandemic. However, volume began to recover from the second quarter onward. As a result, vehicle unit sales decreased by 14,475 units (8.0%) year-on-year to 166,247 units. In other areas, sales of new models entered full swing from the second half, and overall vehicle unit sales increased by 3,924 units (4.7%) year-on-year to 87,159 units.

Although total demand for LCVs decreased in Thailand, the continued popularity of the new model resulted in a year-on-year increase in market share\* to 42.3%.

\*Up until the fiscal year ended March 2020, this figure represented cumulative results for calendar years from January to December. However, from the fiscal year ended March 2021, the cumulative results for the fiscal year from April to March are shown.

#### ·Sales Units of LCV

|        | FY2020 (Units) | FY2021 (Units) | Changes  | % Change |
|--------|----------------|----------------|----------|----------|
| Asia   | 180,722        | 166,247        | (14,475) | (8.0)    |
| Others | 83,235         | 87,159         | 3,924    | 4.7      |
| Total  | 263,957        | 253,406        | (10,551) | (4.0)    |

#### **Powertrains**

Shipments of industrial engines for the fiscal year ended March 2021 increased by 15,135 units (12.3%) from the previous year to 138,021 units, reflecting strong demand for construction machinery in China.

·Shipment Units of Industrial Engines

|       | FY2020 (Units) | FY2021 (Units) | Changes | % Change |
|-------|----------------|----------------|---------|----------|
| Total | 122,886        | 138,021        | 15,135  | 12.3     |

# (b) Analysis of Results of Operations (Fiscal year ended March 2021)

#### **Net Sales**

Net sales fell by 171.7 billion yen (8.3%) over the previous fiscal year to 1,908.1 billion yen, mainly due to a decrease in vehicle sales in Japan and overseas.

Net sales in Japan were 751.6 billion yen (down 9.1% year-on-year), and net sales overseas 1,156.5 billion yen (down 7.7% year-on-year).

#### **Operating Income**

Operating income in the fiscal year ended March 2021 was 95.7 billion yen, (down 31.9% from the previous fiscal year).

The main contributing factors were 9.0 billion yen due to cost reduction activities, and 12.1 billion yen due to changes in expenses including extraordinary losses related to the COVID-19 pandemic. Additional negative factors included sales and model mix fluctuations due to the decrease in sales volumes, which reduced operating income by 66.0 billion yen.

As a result, Isuzu's operating income on net sales for the fiscal year ended March 2021 fell to 5.0% (6.8% for the previous fiscal year).

| Total   | (44.8)            |

#### Non-Operating Gains/Losses

In the fiscal year ended March 2021, Isuzu posted a non-operating gain of 8.5 billion yen, a decrease of 1.7 billion yen from the previous year.

Principle contributors to the result were a decrease in compensation expenses of 2.2 billion yen year-on-year, a positive factor. On the other hand, while net interest (interest and dividend income minus interest expenses) came to 2.5 billion yen, interest income decreased by 2.1 billion yen year-on-year, and equity in earnings of unconsolidated subsidiaries and affiliates decreased by 2.9 billion yen from the previous year.

#### **Extraordinary Gains/Losses**

For the fiscal year ended March 2021, Isuzu posted a net extraordinary loss of 17.4 billion yen, a deterioration of 10.0 billion yen from the previous year. Principal factors were extraordinary losses including loss on disposal of property, plant and equipment, impairment loss on fixed assets, and losses related to COVID-19, and extraordinary gains including gains on the disposal of property, plant and equipment, securities.

#### Taxes

Taxes in the fiscal year ended March 2021 including current income taxes and deferred income taxes were 34.2 billion yen. In the fiscal year ended March 2020, taxes were 41.0 billion yen.

#### **Non-Controlling Interests**

Non-controlling interests consist primarily of profits returned to the non-controlling shareholders of Isuzu's locally incorporated subsidiaries in the ASEAN region and North America as well as Japanese parts manufacturers. Non-controlling interests in the fiscal year ended March 2021 were 9.8 billion yen, compared to 21.2 billion yen in the fiscal year ended March 2020.

#### Profit Attributable to Owners of the Parent

Profit attributable to owners of the parent in the fiscal year ended March 2021 was 42.7 billion yen, a decrease of 38.5 billion yen from the previous year.

Profit attributable to owners of the parent per share came to 57.91 yen.

#### (c) Financial Condition (Fiscal year ended March 2021) Assets

As of March 31, 2021, assets totaled 2,244.9 billion yen, an increase of 92.8 billion yen from March 31, 2020.

This was primarily because of increases in cash and time deposits of 83.3 billion yen, investment securities of 37.1 billion yen, and notes and accounts receivable of 20.8 billion yen, which were partially offset by decreases in inventories of 35.5 billion yen and deferred tax assets of 14.6 billion yen.

#### Liabilities

Total liabilities as of March 31, 2021 increased 21.2 billion yen from March 31, 2020 to 1,039.89 billion yen.

This was mainly due to increases in notes and accounts payable of 25.9 billion yen and other current liabilities of 11.7 billion yen, while interest-bearing liabilities decreased by 20.1 billion yen.

#### **Net Assets**

Net assets increased by 71.6 billion yen from March 31, 2020 to 1,205.0 billion yen. This was chiefly because of an increase in profit attributable to owners of the parent of 42.7 billion yen, and the unrealized holding gain on securities was 27.3 billion yen and foreign currency translation adjustments improved by 13.3 billion yen, while dividends of surplus were 21.4 billion yen.

#### (d) Analysis of Capital Resources and Fund Liquidity Demand for Funds

Principal sources of demand for funds in the Group include purchases of materials and parts for use in manufacturing products; manufacturing expenses; purchases of products; sales, general, and administrative expenses; working capital; and funds for capital investment.

#### **Status of Fund Procurement**

With regard to working capital, group companies ordinarily procure working capital in their local currencies in the form of short-term borrowings with a repayment period not exceeding one year. With regard to funds for capital investment, in principle the Group uses its own funds in the form of capital and retained earnings to cover such investments. Going forward, we may consider procuring funds by such means as borrowing or corporate bond issues.

#### **Fund Liquidity**

As we enter the CASE era, the Company's competitors, partners, and stakeholders are growing more diverse and expanding globally. To be accepted as a company in these rapidly changing times, we strongly recognize the need to change of our management culture.

To tackle this transformation, the company will place *evolving management from ESG perspectives* at the core of its activities, benchmarking ourselves against leading global manufacturers. To develop together with our increasingly globalized and diverse stakeholders,

we aim to place greater emphasis on capital efficiency in management against a backdrop of stable accumulation of shareholders' equity, to realize sustainable and stable shareholder returns, even in an era of rapid change and uncertainty.

Specifically, we will increase capital efficiency by enhancing our social value through strengthening the products and services we provide, with the aim of achieving a 15% ROE in five years' time,

In addition, to realize sustainable and stable shareholder returns ,even in an era of rapid change and uncertainty, we aim to achieve an average dividend payout ratio of 40% during the period of *Mid-Term Business Plan 2024* (FY2022 to FY2024).

In addition, as part of our management focus on capital efficiency, we will consider flexible stock buybacks.

In accordance with the Mid-Term Business Plan through to the fiscal year ending March 2024, the Group will work to achieve these goals by using operating cash flow generated through its business operations to fund investments, debt repayment, and shareholder returns, and by mainly using borrowing and corporate bonds to finance M&As and other activities.

Although it remains necessary to closely watch the liquidity of our cash position, the Group's policy is to maintain sufficient liquidity to deal with abrupt changes in the financial markets by augmenting cash and cash equivalents with commitment line contracts with major banks.

# **Notes to Consolidated Financial Statements**

#### 1. Basis of Presenting the Financial Statements

The accompanying consolidated financial statements of Isuzu Motors Limited ("the Company") and consolidated subsidiaries are prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects as to application and disclosure requirement of International Financial Reporting Standards ("IFRS"), and are compiled from the consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Law of Japan. In addition, the notes to the consolidated financial statements include information which is not required under accounting principles generally accepted in Japan but is presented herein as additional information.

In order to facilitate the understanding of readers outside Japan, certain reclassifications have been made to the consolidated financial statements prepared for domestic purposes and relevant notes have been added.

The yen amounts are rounded down in millions. Therefore, total or subtotal amounts do not correspond with the aggregation of such account balances.

U.S. dollar amounts have been translated from Japanese yen for convenience only at the rate of ¥110.71 = US\$1, the approximate exchange rate prevailing on the Foreign Exchange Market on March 31, 2021. The translations should not be construed as a representation that Japanese yen have been or could be converted into U.S. dollars at that rate. The U.S. dollar amounts are then rounded down in thousands.

Certain reclassifications have been made in the 2020 financial statements to conform to the presentation for 2021.

#### 2. Summary of Significant Accounting Policies

#### a) Consolidation

The consolidated financial statements include the accounts of the Company and significant subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

The excess of cost of investments in the subsidiaries and affiliates over the fair value of the net assets of the acquired subsidiaries at the dates of acquisition is recognized as a consolidation goodwill, which is being amortized over estimated periods not exceeding 20'years.

The Company's scope of consolidation and application of the equity method are as follows: Scope of Consolidation

(1) Number of consolidated subsidiaries: 88

(2) Principal subsidiaries:

ISUZU MOTORS SALES LTD.; Isuzu Motors Kinki Co., Ltd.; ISUZU MOTOR SYUTOKEN CO., LTD.; Isuzu Motors America, LLC.; Isuzu Motors Co., (Thailand) Ltd.

#### (3) Changes in scope of consolidation:

There were no changes in the scope of consolidation during the current fiscal year.

 (4) Principal non-consolidated subsidiaries: Hakodate Isuzu Motors Ltd.

(5) Reasons for excluding subsidiaries from consolidation

The non-consolidated subsidiaries are small in terms of their total assets, net sales, net income or loss, and retained earnings (attributable to the Company). Thus, they only have minor effects on the consolidated financial statements.

#### Scope of Equity Method

(1) Number of companies accounted for by the equity method: 50

(2) Principal companies accounted for by the equity method

Non-consolidated subsidiaries: ISUZU INSURANCE SERVICE Limited Affiliates: J-Bus Limited

- (3) Changes in scope of equity method accounting Fuji Shokai Co., Ltd. has been excluded from the scope of affiliates accounted for by the equity method because some of its shares were sold.
- (4) Principal companies not accounted for by the equity method Non-consolidated subsidiaries: Hakodate Isuzu Motors Ltd. Affiliates: Suzuki Unyu Ltd.
- (5) Reasons the equity method is not applied

These companies are not accounted for by the equity method because their effect on the consolidated financial statements is not significant, either individually or collectively.

#### Fiscal Period of Consolidated Subsidiaries

Of the consolidated subsidiaries, the fiscal year end for 21 overseas subsidiaries is primarily December 31.

In preparing consolidated financial statements, the Company uses the respective financial statements of the subsidiaries as of their fiscal year end. If significant transactions have been made between the two fiscal year end dates, the Company makes necessary adjustments.

The fiscal year end for 32 domestic subsidiaries and 35 overseas subsidiaries is the same as the consolidated fiscal year end.

#### b) Foreign Currency Translation

Receivables and payables denominated in foreign currencies are translated into Japanese yen at the exchange rate of the balance sheet date, and differences arising from the translation are included in the consolidated statements of income as a gain or loss. The Company translates the balance sheet accounts of foreign consolidated subsidiaries into Japanese yen at the exchange rate of the balance sheet date of each of those subsidiaries. Revenue and expense accounts of consolidated overseas subsidiaries are translated using the average exchange rate during the year. Differences arising from the translation are presented as foreign currency translation adjustments and non-controlling interests in the balance sheet.

#### c) Securities

The accounting standard for financial instruments requires that securities be classified into three categories: trading, held-to-maturity or other securities.

Marketable securities classified as other securities are carried at fair value with changes in unrealized holding gain or loss, net of the applicable income taxes, included directly in net assets. Non-marketable securities classified as other securities are carried at cost determined by the moving average method.

#### d) Inventories

Inventories of the Company are valued at cost using the weighted average method. (Balance sheet values are measured by the lower of cost or market method.) Inventories of consolidated subsidiaries are principally valued at cost using the specific identification method. (Balance sheet values are measured by the lower of cost or market method.)

#### e) Property, Plant and Equipment (excluding lease assets)

Property, plant and equipment are stated at cost. Depreciation of property, plant and equipment of the Company and its consolidated subsidiaries is calculated principally by the straight-line method based on the estimated useful lives. Depreciation of property, plant and equipment of certain consolidated subsidiaries is calculated by the declining balance method.

#### f) Software (excluding lease assets)

Software used by the Company and its consolidated subsidiaries is amortized using the straight-line method, based on the estimated useful lives (generally 5 years).

#### g) Leases

The Company, as a lessor, leases properties under arrangements. Sales and cost of sales relating to finance lease transactions are recognized on receipt of lease payments.

The Company is also a lessee of various assets leased under finance lease contracts without transfer of ownership; these assets are depreciated over their respective lease periods by the straight-line method with residual values as specified in the lease contracts or a residual value of zero.

#### h) Provisions and Allowances

#### (1) Allowance for doubtful accounts

With a view to providing for bad debt losses on accounts receivable and loans receivable, etc., and bad debt expenses, the Company and domestic consolidated subsidiaries provide for the estimated irrecoverable amount based on the historical default rate for normal receivables and through the individual examination of recoverability for particular receivables such as claims to obligors with high possibility of business failure. Foreign consolidated subsidiaries determine allowances for doubtful accounts by assessing each individual account. The Company makes necessary adjustments to allowance for doubtful accounts in consolidation for the elimination of receivables and payables among consolidated subsidiaries.

(2) Provision for bonus accounts

Provision for bonus accounts are provided in an amount estimated to cover the bonus payment for services rendered by employees during the fiscal year.

(3) Provision for directors' bonuses

Provision for directors' bonuses are provided in an amount estimated to cover the bonus payment for services rendered by directors during the fiscal year.

(4) Provision for warranty costs

Provisions for warranty costs are provided to cover the cost of all services anticipated to be incurred during the entire warranty period in accordance with the warranty contracts. These provisions are calculated based on past experience.

#### (5) Provision for maintenance costs

Provision for maintenance costs is provided for the portion corresponding to the already leased period out of the total amount anticipated to be incurred during the entire lease period for maintenance costs based on lease contracts, such as lease automobile maintenance costs.

(6) Provision for management board incentive plan trust

Provision for management board incentive plan trust is provided in an amount estimated to cover the payment of Company stock benefits to Directors of the Board and others during the current fiscal year.

#### i) Employees' Retirement Benefits

The Company and its consolidated subsidiaries have defined benefit pension plans. Consolidated subsidiaries have also defined contribution pension plans.

The estimated amount of all retirement benefits to be paid at future retirement dates is allocated to each service year using the benefit formula method. Prior service costs are being amortized as incurred by the straight-line method over periods, which are shorter than the average remaining years of service of the eligible employees (mainly 10 years). Actuarial gains or losses are amortized by the straight-line method or the declining balance method over the period within the average remaining years of service of the eligible employees (mainly 10 years) commencing with the following periods.

Some of the consolidated subsidiaries are adopting the simplified method of calculating their retirement benefit

#### obligations and its cost.

In the simplified method, the amount which would be required to be paid if all eligible employees of its subsidiaries voluntarily terminated their employment as of the balance sheet date is recognized as the retirement benefit obligation.

#### j) Income Taxes

Income taxes are accounted for on an accrual basis. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of change in tax rate is recognized in income in the period of the change.

#### k) Profit Attributable to Owners of the Parent Per Share

Profit attributable to owners of the parent per share of common stock is calculated based upon the weighted average number of shares of common stock outstanding during each year.

Basis for the calculation of profit attributable to owners of the parent per share as of March 31, 2021 is as follows:

|  | Millions of yen | Thousands of U.S. dollars |
|--|-----------------|---------------------------|
| Profit attributable to owners of the parent                            | ¥42,708         | \$385,767                 |
| Profit attributable to owners of the parent pertaining to common stock | ¥42,708         | \$385,767                 |
| Average number of outstanding shares:<br>Common stock:                 | 737,543,812     |                           |

In the calculation of basic earnings per share, the number of shares of the Company's stock owned by the management board incentive plan (BIP) trust is included in treasury stock. Therefore, the number of those shares is deducted in calculating the number of shares of common stock outstanding at the end of the year and the weighted average number of shares of common stock outstanding during the year.

The weighted average number of shares of common stock is 838,968 shares for the year ended March 31, 2021.

#### I) Appropriation of Retained Earnings

The appropriation of retained earnings is recorded in the fiscal year in which such appropriation is approved by the board of directors or shareholders.

#### m) Cash and Cash Equivalents

For the purpose of the consolidated statements of cash flows, the Company considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Reference for the reconciliation between cash and cash equivalents at end of the fiscal year is in Note 16. Consolidated statements of cash flows, (1) Reconciliation for cash status between balance sheets and cash flows.

#### n) Adoption of New Accounting Standard

(Significant Accounting Estimates)

(1) Accrued expenses for specific warranty programs such as recalls

① Amounts recorded on the consolidated financial statements for the current fiscal year

| Account item  | Consolidated balance sheet amount |
|---|-----------------------------------|
|   | ¥9,887 million                    |
| Accrued expenses for specific warranty programs such as recalls | (\$89,305 thousand)               |

2 Information related to significant accounting estimates for the identified item

The Group manufactures various products at its plants in Japan and abroad in conformity with stringent quality management standards accepted globally. To maintain and improve product quality, the Group strives for early detection and sharing of failure information, conducts assessments for quality improvement throughout the Company, and monitors the operational status of company-wide quality management through the Quality Assurance & Customer Satisfaction Improvement Committee.

The Group records accrued expenses to provide for the cost of product recalls, etc.

Such accrued expenses are calculated by multiplying the estimated number of units subject to recalls, etc. by estimated costs per unit.

Key assumptions used in calculating accrued expenses for specific warranty programs such as recalls are the estimated number of units subject to recalls, etc. for each specific warranty program and estimated costs per unit. The estimated number of units is calculated by taking into account the expected number of units affected depending

on the specific warranty programs reported to the relevant government agencies. The estimated costs per unit are calculated by estimating the cost of parts and labor required for individual repairs under specific warranty programs reported to the relevant government agencies.

The Group reviews these estimates on an ongoing basis through examination of the status of actual costs incurred for respective cases of recall, etc.

Accrued expenses for specific warranty programs such as recalls that were calculated by the Group have so far been appropriate and there has been no material difference between actual results and calculated amounts.

However, in the estimation of accrued expenses for specific warranty programs such as recalls, there are uncertainties in key assumptions and therefore if the actual cost of recalls, etc. deviates from estimated amounts, estimated obligations may need to be revised.

Furthermore, if conducting a new large-scale recall campaign, etc., the Group's business results and financial position may be adversely and significantly affected.

#### (2) Impairment loss on property, plant and equipment

① Amounts recorded on the consolidated financial statements for the current fiscal year

| Asset group   | Account item        | Consolidated balance sheet |
|---|---------------------|----------------------------|
| Asset gloup   | Account item        | amount                     |
| Manufacturing and sales subsidiary based in India           | Property, plant and | ¥5,533 million             |
|   | equipment           | (\$49,981 thousand)        |
| Manufacturian and acted as the idians based in Ocuth Africa | Property, plant and | ¥7,879 million             |
| Manufacturing and sales subsidiary based in South Africa    | equipment           | (\$71,169 thousand)        |

2 Information related to significant accounting estimates for the identified item

In anticipation of the expansion of logistics demand and the commercial vehicles market in emerging countries, the Group positions certain emerging markets as priority regions and promotes sales activities.

Property, plant and equipment that were acquired by overseas subsidiaries for the purpose of manufacturing commercial vehicles (CV) and pickup trucks and derivatives (LCV) for such emerging markets are primarily recorded as buildings and structures, machinery, equipment and vehicle and land on the consolidated balance sheet.

The Group classifies asset groups into business assets, idle assets and assets for rent, while identifying each of the individual idle assets and assets for rent as a stand-alone asset group.

When indication of impairment is identified on such business assets and assets for rent on account of a decline in market prices and decreased profitability, etc., the Group examines their recoverability on an individual basis.

The recoverable amount of property, plant and equipment is determined at the higher of value in use and net selling amount.

Value in use is calculated by discounting to the present value the estimated future cash flows generated by the asset group, based on the business plan, which was approved by the Board of Directors of the manufacturing and sales subsidiary. Assumptions that may have a material impact on the calculation of future cash flows include total demand in the market, market share and growth rates. An assumption that may have a material impact on the calculation of value in use is the discount rate. Total demand in the market, market share and growth rates and changes in the operating environment based on the information currently available, with reference to the Group's past results and forecast data by third-party information agencies. The weighted average capital cost is used as the discount rate.

Net selling amount is calculated by deducting the estimated costs of disposal from the fair value of asset or asset group. Fair value, in principle, is based on third-party valuation reports prepared and is considered a price based on observable market prices. However, if no market price is observable, another price reasonably calculated according to the characteristics of the asset is used as fair value, such as a price calculated by the income approach or the cost approach considering obsolescence.

Considering the uncertainties associated with the spread of COVID-19, calculations are based on the premise that a decline in demand in emerging markets seen in the current fiscal year will continue in and after the next fiscal year. The Group reviews these forecasts based on the latest information available on an ongoing basis.

As a result of the examination of recoverability, the book values of asset groups for which impairment was recognized have been reduced to their recoverable amounts.

Demand for vehicles is strongly affected by economic conditions. As such, if economies decelerate and cause total demand in the market to decrease, leading to poor performance of investees in the future, the Group may be required to record an impairment loss.

If uncertainties heighten over the future economic conditions in each emerging market, accounting estimates and assumptions may be significantly affected, which may result in impairment of the property, plant and equipment that were acquired by overseas subsidiaries for the purpose of manufacturing CV and LCV for respective emerging markets.

#### o) Unapplied Accounting Standards

#### [Consolidated subsidiaries in the United States]

ASU 2016-02 "Leases"

(1) Overview

In accordance with ASU 2016-02, a lessee is required to recognize assets or liabilities for all leases on the balance sheet in principle.

(2) Scheduled date of adoption

The Company expects to adopt the accounting standards from the beginning of the fiscal year ending March 31, 2023.

(3) Impact of adoption of ASU 2016-02

The impact of the adoption of ASU 2016-02 on the Company's consolidated financial statements is currently under evaluation.

#### [The Company and Domestic Consolidated Subsidiaries]

"Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020) and "Implementation Guidance on Accounting Standard for Revenue Recognition" (ASBJ Guidance No. 30, March 26, 2021), "Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No. 19, March 30, 2020). (1) Overview

The International Accounting Standards Board (IASB) and US Financial Accounting Standards Board (FASB) jointly developed comprehensive accounting standards regarding revenue recognition, and released "Revenue from Contracts with Customers" in May 2014 (IFRS 15 by the IASB and Topic 606 by the FASB). Considering the fact that IFRS 15 is being applied from fiscal years beginning on or after January 1, 2018 and Topic 606 applied from fiscal years beginning after December 15, 2017, the ASBJ developed comprehensive accounting standards regarding revenue recognition and released the standards along with the implementation guidance.

In developing its business accounting standards regarding revenue recognition, the basic policy of the ASBJ was to include the basic principles of IFRS 15 in the accounting standards from a viewpoint of comparability between financial statements, which is one of the benefits of being in conformity with IFRS 15. However, if there is any item that needs particular consideration in light of Japanese business practices, a substitute treatment may be employed to the extent that it does not impair the comparability.

#### (2) Scheduled date of adoption

The Company expects to adopt the accounting standard and implementation guidance from the beginning of the fiscal year ending March 31, 2022.

(3) Impact of adoption of accounting standard and implementation guidance

The impact of the adoption of the accounting standard and implementation guidance on the Company's consolidated financial statements is currently under evaluation.

On July 4, 2019, the Accounting Standards Board of Japan (ASBJ) issued "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30), and "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31), along with related updates to "Accounting Standard for Measurement of Inventories" (ASBJ Statement No. 9), and "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10), "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31).

"Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No. 19, March 30, 2020). (1) Overview

The ASBJ has developed an "Accounting Standard for Fair Value Measurement" and "Implementation Guidance on Accounting Standard for Fair Value Measurement" (hereinafter collectively, the "Fair Value Measurement Standard"), which provide guidance for fair value measurement in order to improve comparability with internationally recognized accounting standards. The Fair Value Measurement Standard is applied with respect to the fair value of the following items;

• Financial instruments defined in "Accounting Standard for Financial Instruments"

• Inventories held for trading purposes defined in "Accounting Standard for Measurement of Inventories" (2) Scheduled date of adoption

The Company expects to adopt the accounting standards and related implementation guidance from the beginning of the fiscal year ending March 31, 2022.

(3) Impact of adoption of revised accounting standard and related implementation guidance

The Company is currently evaluating the effect of the adoption of the accounting standards and related implementation guidance on its consolidated financial statements.

#### p) Change in Presentation

(Application of the "Accounting Standard for Disclosure of Accounting Estimates")

The Group has applied the "Accounting Standard for Disclosure of Accounting Estimates" (ASBJ Statement No.31, March 31, 2020) in preparing the consolidated financial statements from the end of the current fiscal year and

provides notes on significant accounting estimates in the consolidated financial statements.

However, comparative information for the previous fiscal year is not disclosed in accordance with the transitional treatment specified in Paragraph 11 of the aforementioned ASBJ Statement No.31.

#### q) Additional Information

(Performance-based Stock Compensation Plan for Directors and Corporate Officers)

The Company has adopted a revised performance-linked share-based remuneration plan, under which the Company's shares are granted to Directors (excluding those serving as Audit and Supervisory Committee Members) and Executive Officers (excluding those serving as Directors) through a trust.

#### (1) Outline of the plan

Based on approvals in its 119th Annual General Meeting of Shareholders held on June 25, 2021, the Company has changed its governance structure to a Company with an Audit and Supervisory Committee, and, in line with this change, has introduced the revised performance-linked share-based remuneration plan for Directors (excluding those serving as Audit and Supervisory Committee Members and Outside Directors) and Executive Officers (hereinafter referred to collectively as "Directors").

The objectives of the plan are to clarify the linkage between the remuneration of Directors and the Company's performance and share value, and to require Directors to share not only the benefits from a rise in the Company's share price but also the risks of a fall in it in order to further motivate them to attain the targets of the mid- to long-term business plans and improve corporate value.

Under the plan, which covers the Company's mid-term business plan period (basically three business years), the Company's shares are granted to Directors eligible for such grant from the trust, which acquires the Company's shares to be granted using trust assets established by contributions of the Company, depending on the attainment of the performance targets set in the mid-term business plan.

#### (2) The Company's shares remaining in the Trust.

The Company's shares remaining in the Trust are included in treasury stock in net assets at the carrying value (excluding related costs) in the Trust. As of March 31, 2021, the corresponding carrying value and the number of shares of the Company's stock are ¥1,126 million (\$10,177 thousand) and 835,751 shares, respectively.

#### 3. Securities

Fair value information of other securities as of March 31, 2021 and 2020 are as follows:

|                  | Ν                    | Aillions of yen   |                           | Thous             | ands of U.S. ( | dollars                   |

#### Millions of yen

| 2020             | Acquisition<br>costs | Carrying<br>value | Unrealized<br>gain (loss) |
|------------------|----------------------|-------------------|---------------------------|
| Unrealized gain: |                      |                   |                           |
| Stocks:          | ¥23,949              | ¥62,027           | ¥38,078                   |
| Total            | ¥23,949              | ¥62,027           | ¥38,078                   |
|                  |                      |                   |                           |
| Unrealized loss: |                      |                   |                           |
| Stocks:          | ¥10,803              | ¥9,717            | ¥(1,086)                  |
| Total            | ¥10,803              | ¥9,717            | ¥(1,086)                  |

Proceeds from sales of securities classified as other securities amounted to ¥2,419 million (\$21,850 thousand) with an aggregate profit on sales of ¥714 million (\$6,455 thousand), an aggregate loss on sales of ¥38 million (\$350 thousand) for the year ended March 31, 2021.

Non-marketable securities classified as other securities as of March 31, 2021 amounted to ¥2,687 million (\$24,272 thousand).

Investments in jointly controlled companies among shares of unconsolidated subsidiaries and affiliates as of March 31, 2021 amounted to ¥30,122 million (\$272,082 thousand).

Impairment loss on marketable securities classified as other securities of ¥176 million (\$1,598 thousand) was recognized during the year ended March 31, 2021.

#### 4. Long-term Debt

Long-term debt as of March 31, 2021 and 2020 are as follows:

|                       | Millions  | of yen   | Thousands of<br>U.S. dollars |  |
|-----------------------|-----------|----------|------------------------------|--|
|                       | 2021 2020 |          | 2021                         |  |
| Bonds                 | ¥50,000 — |          | \$451,630                    |  |
| Loans                 | ¥232,412  | ¥273,985 | \$2,099,286                  |  |
| Lease obligations     | 20,436    | 21,890   | 184,594                      |  |
| Less: current portion | 45,120    | 44,911   | 407,552                      |  |
| Total long-term debt  | ¥257,728  | ¥250,963 | \$2,327,958                  |  |

The annual maturities of long-term debt as of March 31, 2021 are summarized as follows:

| Planned maturity date       | Millions of yen | Thousands of<br>U.S. dollars |  |
|-----------------------------|-----------------|------------------------------|--|
| Over 1 year within 2 years  | ¥46,730         | \$422,101                    |  |
| Over 2 years within 3 years | 54,456          | 491,884                      |  |
| Over 3 years within 4 years | 59,660          | 538,889                      |  |
| Thereafter                  | 96,880          | 875,081                      |  |
| Total                       | ¥257,728        | \$2,327,958                  |  |

The assets pledged as collateral and related liabilities as of March 31, 2021 and 2020 are as follows:

|                              | Million         | Thousands of U.S. dollars |                           |
|------------------------------|-----------------|---------------------------|---------------------------|
| Assets pledged as collateral | 2021 2020       |                           | 2021                      |
| Inventories                  | ¥270 ¥2,618     |                           | \$2,440                   |
|                              | Millions of yen |                           | Thousands of U.S. dollars |
| Related liabilities          | 2021            | 2020                      | 2021                      |
| Accounts payable             | ¥2,913          | ¥5,099                    | \$26,315                  |

#### 5. Retirement Benefit Plans

The Company has defined benefit plans, i.e., corporate pension fund and lump-sum payment plans. Certain consolidated subsidiaries have defined benefit plans, i.e., corporate pension fund, welfare pension fund plans, and lump-sum payment plans and defined contribution pension plans. The Company and its consolidated subsidiaries occasionally make severance payments in addition to the retirement benefits noted above.

Some of the consolidated subsidiaries are adopting the simplified method of calculating their retirement benefit obligations.

1. Defined benefit plans as of March 31, 2021 and 2020 are follows;

(1) The reconciliation between beginning and ending balance of projected benefit obligation

|   | Millions of | Thousands of<br>U.S. dollars |             |
|---|-------------|------------------------------|-------------|
| Changes in benefit obligation:                        | 2021        | 2020                         | 2021        |
| Projected benefit obligation at beginning of the year | ¥190,124    | ¥189,631                     | \$1,717,316 |
| Service cost  | 8,916       | 9,961                        | 80,539      |
| Interest cost on projected benefit obligation         | 2,059       | 2,119                        | 18,606      |
| Actuarial (gain) loss                                 | (140)       | 763                          | (1,266)     |
| Benefit paid  | (10,979)    | (8,692)                      | (99,174)    |
| Prior service cost                                    | 1,379       | _                            | 12,459      |
| Others  | 1,288       | (3,658)                      | 11,648      |

|---------------------------------|----------------|---------|------------------------------|
| Unrecognized prior service cost | ¥770           | ¥310    | \$6,962                      |
| Unrecognized actuarial loss     | (830)          | 10,133  | (7,501)                      |
| Total                           | ¥(59)          | ¥10,444 | \$(539)                      |

#### (7) Allocation of plan assets

In order to determine the expected long-term rate of return on assets, the Company and its consolidated subsidiaries considers the current and expected future allocation of the pension assets and the variety of the properties constituting the pension assets.

|   | Ratio | Ratio |  |  |
|---|-------|-------|--|--|
|   | 2021  | 2020  |  |  |
| Debt securities                         | 28%   | 26%   |  |  |
| Equity securities                       | 34%   | 30%   |  |  |
| Cash and deposits                       | 4%    | 5%    |  |  |
| Life insurance company general accounts | 26%   | 31%   |  |  |
| Other assets                            | 8%    | 8%    |  |  |
| Total                                   | 100%  | 100%  |  |  |
|   |       |       |  |  |

[Remarks]

\* "Other assets" includes alternative investments t

(8) Actuarial assumptions used to determine costs and obligations for retirement benefits (weighted average)

|  | 2021 | 2020 |
|--|------|------|
| Discount rates                                 | 1.2% | 1.2% |
| Expected long-term return rates on plan assets | 1.9% | 1.9% |
| Expected rate of pay raises                    | 3.7% | 3.5% |

#### 2. Defined contribution pension plans are as follows;

Required contributions of certain subsidiaries to defined contribution pension plans were ¥830 million (\$7,504 thousand) for the year ended March 31, 2021, and ¥726 million for the year ended March 31, 2020.

#### 6. Income Taxes

Accrued income taxes in the consolidated balance sheets include corporation tax, inhabitant tax and enterprise tax. The significant components of the Company and its consolidated subsidiaries' deferred tax assets and liabilities as of March 31, 2021 and 2020 are as follows:

|  | Millions | Thousands of U.S. dollars |             |
|--|----------|---------------------------|-------------|
|  | 2021     | 2020                      | 2021        |
| Deferred tax assets:   |          |                           |             |
| Net defined benefit liability  | ¥24,797  | ¥28,705                   | \$223,988   |
| Loss on write-down of investments in subsidiaries<br>and allowance for doubtful accounts | 16,353   | 14,194                    | 147,717     |
| Accrued expenses   | 16,043   | 13,747                    | 144,918     |
| Accrued bonus  | 7,052    | 6,914                     | 63,705      |
| Loss on inventory write-down   | 2,345    | 2,991                     | 21,188      |
| Loss carry-forward (Note 2)  | 22,986   | 19,339                    | 207,625     |
| Unrealized profit eliminated in consolidation etc.                                       | 11,665   | 19,332                    | 105,366     |

| Total gross deferred tax assets  | ¥128,026 | ¥121,633                  | \$1,156,415 |
| Valuation allowance for net operating loss carryforwards (Note 2)                        | (21,405) | (18,089)                  | (193,349)   |
| Valuation allowance for deductible temporary differences                                 | (27,542) | (21,556)                  | (248,776)   |
| Subtotal of valuation allowance (Note 1)   | (48,947) | (39,645)                  | (442,125)   |
| Total deferred tax assets  | ¥79,079  | ¥81,987                   | \$714,290   |
| Deferred tax liabilities:  |          |                           |             |
| Reserve for reduction entry of fixed assets  | 952      | 1,021                     | 8,603       |

| Unrealized holding gain on securities       | 20,612  | 10,620  | 186,188   |
|---|---------|---------|-----------|
| Retained earnings in subsidiaries           | 5,529   | 5,670   | 49,943    |
| Others                                      | 8,130   | 6,171   | 73,437    |
| Total deferred tax liabilities              | ¥35,224 | ¥23,484 | \$318,172 |
| Net deferred tax assets                     | ¥43,854 | ¥58,502 | \$396,117 |
| Deferred tax liabilities:                   |         |         |           |
| Reserve for reduction entry of fixed assets | 10      | 9       | 94        |
| Unrealized holding gain on securities       | 31      | 52      | 284       |
| Subsidiaries' land evaluation               | 514     | 705     | 4,645     |
| Others                                      | 25      | 24      | 232       |
| Net deferred tax liabilities                | ¥582    | ¥792    | \$5,257   |

Notes:

 The variance in the valuation allowance is due mainly to the increase in the valuation allowance related to the net operating loss carryforwards of Isuzu Motors India Private Limited, a consolidated subsidiary of the Company.
 A breakdown of net operating loss carryforwards and valuation allowance by expiry date as of March 31, 2021 and 2020 are as follows:

|                                     |                               |  |  |   |  | M                          | lillions of yen |

| Net operating loss carryforwards(a) | ¥2,420                        | ¥3,535   | ¥836   | ¥2,401  | ¥2,704   | ¥7,441                     | ¥19,339          |
| Valuation allowance                 | (1,986)                       | (3,100)  | (778)  | (2,354)   | (2,654)  | (7,215)                    | (18,089)         |
| Deferred tax assets                 | ¥433                          | ¥434   | ¥57  | ¥46   | ¥50  | ¥226                       | ¥1,249           |

(a) The amount is determined by multiplying the corresponding net operating loss carryforwards by the effective statutory tax rate.

(b) Deferred tax assets related to net operating loss carryforwards arose in the following consolidated subsidiaries of the Company: Isuzu North America Corporation, and Isuzu Hicom Malaysia Sdn. Bhd. The said deferred tax assets are judged recoverable, based on evaluation on their taxable incomes estimated on the basis of their future profitability.

Reconciliation between the effective statutory tax rate and the effective tax rate reflected in the accompanying consolidated statements of income for the years ended March 31, 2021 and 2020 are as follows:

|   | 2021  | 2020  |
|---|-------|-------|
| Effective statutory tax rate                            | 30.6% | 30.6% |
| Tax credit  | (2.7) | (4.1) |
| Net valuation allowance                                 | 10.7  | 5.1   |
| Difference in tax rates applied at foreign subsidiaries | (2.9) | (4.2) |
| Equity in earnings of unconsolidated subsidiaries       | (1.8) | (1.7) |
| Foreign withholding tax                                 | 6.8   | 4.4   |
| Per capita levy of inhabitant tax                       | 0.4   | 0.2   |
| Retained earnings in subsidiaries                       | (0.2) | 1.6   |
| Others  | (1.5) | (0.1) |
| Effective tax rate                                      | 39.5% | 28.6% |

. ....

#### 7. Shareholders' Equity

Changes in the numbers of shares issued and outstanding for the years ended March 31, 2021 and 2020 are as follows:

Common stock outstanding

#### 8. Land Revaluation

In accordance with the Law concerning Revaluation of Land enacted on March 31, 1999, the land used for business owned by the Company and its domestic consolidated subsidiaries was revalued, and the unrealized gain on the revaluation of land, net of deferred tax, was reported as "Revaluation Reserve for Land" within net assets, and the relevant deferred tax was reported as "Deferred Tax Liabilities related to Land Revaluation" in liabilities as of March 31, 2021.

Revaluation Date: March 31, 2000

(Revaluation Date: March 31, 2001 : Certain consolidated subsidiaries)

The method of revaluation is as follows:

Under article 2-4 of the Enforcement Ordinance on Law concerning Revaluation of Land, the land price for the revaluation was determined based on the official notice prices assessed and published by the Commissioner of National Tax Agency of Japan as the basis for calculation of Landholding Tax as stipulated in article 16 of the Landholding Tax Law. Appropriate adjustments for the shape of land and the timing of the assessment have been made. The land price for the revaluation for some of the land is based on appraisal value.

|  | Millions of | of yen  | Thousands of U.S. dollars |

| forward contracts<br>under the designated<br>hedge accounting<br>method | U.S. dollar                                | Accounts            | 4,322              | -                | . (1*) -        | 5,942              | -                   | (1*)                      | 39,046             | -                | - (1*)     |
| пешоа   | Australian dollar                          | receivable          | 7,169              |                  | (1)             | 3,686              |                     | (1)                       | 64,755             |                  |            |
|   | Total                                      |                     | ¥40,570            | -                | ¥(1,224)        | ¥31,720            | -                   | ¥512                      | ¥366,460           | -                | \$(11,059) |

(1\*) Since foreign exchange forward contracts under the designated hedge accounting method are accounted for as an integral part of accounts receivable, the hedged item, their fair values are included in the fair value of the underlying accounts receivables.

(2) Interest rate-related

|                             |   |                   | As of March 31, 2021 |               | As of March 31, 2020 |                    |               | As of March 31, 2021      |                    |               |            |
|-----------------------------|---|-------------------|----------------------|---------------|----------------------|--------------------|---------------|---------------------------|--------------------|---------------|------------|
|                             | Type of derivative                                | Main              | Millions of yen      |               | Millions of yen      |                    |               | Thousands of U.S. dollars |                    |               |            |
|                             | transactions                                      | hedged<br>items   | Contract<br>amount   | Over one year | Fair value           | Contract<br>amount | Over one year | Fair value                | Contract<br>amount | Over one year | Fair value |
| Principle accounting method | Interest rate swaps<br>Pay fixed receive floating | Long-term<br>debt | -                    | -             | -                    | ¥45,000            | -             | ¥(14)                     | -                  | -             | -          |
|                             | Total   |                   | -                    | -             | -                    | ¥45,000            | -             | ¥(14)                     | -                  | -             | -          |

(2\*) Since interest rate swaps under the exceptional accounting method are accounted for as an integral part of long-term debt, the hedged item, their fair values are included in the fair value of the underlying long-term debt.

#### 12. Financial Instruments

(1) Policies for financial instruments

The Company limits its investments of surplus funds to deposits and obtains funds mainly from bank borrowings and issuance of bonds payable. The Company utilizes derivatives for avoiding risks related to future fluctuations of market prices, within the limits of receivables and payables denominated in foreign currencies and borrowings.

(2) Details of financial instruments, their risks and management systems for such risks

Notes and accounts receivable, which are operating receivables, and lease receivables and lease investment assets are exposed to customer credit risks, which are carefully managed based on the Company's internal accounting manual, with outstanding balances of receivables from customers constantly monitored.

Investment securities, which are exposed to risks of market price fluctuations, are mainly equity securities issued by affiliates. The Company continually monitors their market prices in accordance with its internal rules for securities.

Notes and accounts payable, which are operating payables, and electronically recorded obligations - operating, and accrued expenses, are mostly due within one year.

With regard to borrowings, short-term loans are mainly long-term ones that are due within one year. Long-term loans are made to raise funds mainly for capital expenditure and long-term working capital. Bonds payable are issued to raise funds mainly for repaying borrowings. Borrowings with variable interest rates are exposed to interest rate fluctuation risks, and are hedged by derivatives (interest rate swaps and interest rate options). Hedge effectiveness is determined by comparing the cumulative changes in cash flows from the hedging instruments with those from the hedged items.

The Company has rules on derivative transactions and executes them and risk management based on those rules, which stipulates policies, procedures, retention limits and reporting systems.

Furthermore, operating payables and borrowings are exposed to liquidity risks, which the Company carefully manages by periodically checking their due dates and outstanding balances.

(3) Supplementary explanation about matters relating to the fair values of financial instruments

The amounts of derivative transaction contracts shown in the derivatives section of the notes to consolidated financial statements do not represent the market risks associated with the derivative transactions.

Financial instruments recognized in the consolidated financial statements as of March 31, 2021 and 2020 are as follows. Financial instruments, whose fair values are not readily available, are not included in the following table.

|  | A              | As of March 31, 2021 |            |                | As of March 31, 2020 |            |                           | As of March 31, 2021 |            |  |

The figures in parenthesis indicate those posted in liabilities

Because market prices of unlisted equity securities of ¥2,687 million (\$24,272 thousand) as of March 31, 2021 and ¥2,363 million as of March 31, 2020 and equity securities of non-consolidated subsidiaries and affiliates of ¥82,785 million (\$747,770 thousand) as of March 31, 2021 and ¥80,447 million as of March 31, 2020, respectively, are not readily available, and their future cash flow cannot be estimated, it is extremely difficult to assume their fair values. Therefore, they are not included in "(4) Investment securities" mentioned above.

The redemption schedule for monetary receivables and marketable securities with maturity dates as of March 31, 2021 and 2020 are as follows:

|   | As of March 3   | 1, 2021       | As of March     | 31, 2020      | As of March 31, 2021      |               |  |
|---|-----------------|---------------|-----------------|---------------|---------------------------|---------------|--|
|   | Millions of yen |               | Millions o      | f yen         | Thousands of U.S. dollars |               |  |
|   | Within one year | Over one year | Within one year | Over one year | Within one year           | Over one year |  |
| Cash and time deposits                        | ¥404,754        | -             | ¥321,427        | -             | \$3,655,987               | -             |  |
| Notes and accounts receivable                 | 287,790         | -             | 266,919         | -             | \$2,599,495               | -             |  |
| Lease investment assets and lease receivables | 43,254          | ¥92,742       | 44,012          | ¥92,839       | \$390,700                 | \$837,710     |  |
| Total   | ¥735,798        | ¥92,742       | ¥632,358        | ¥92,839       | \$6,646,182               | \$837,710     |  |

#### 13. Research and Development Costs

Research and development costs included in "selling, general and administrative expenses" and manufacturing costs for the years ended March 31, 2021 and 2020 is as follows:

|                                | Millions | of yen  | Thousands of U.S. dollars |  |
|--------------------------------|----------|---------|---------------------------|--|
|                                | 2021     | 2020    | 2021                      |  |
| Research and development costs | ¥91,026  | ¥98,084 | \$822,203                 |  |

#### 14. Impairment Loss on Fixed Assets

Impairment loss on fixed assets recognized in the consolidated financial statements for the year ended March 31, 2021 is as follows:

| Location                                  | Usage           | Туре  | Millions of yen | Thousands<br>of U.S.<br>dollars |
|---|-----------------|---|-----------------|---------------------------------|
| Fujisawa-shi,<br>Kanagawa prefecture      | Idle assets     | Machinery, furniture,<br>fixtures and other | 165             | 1,490                           |
| Tochigi-shi,<br>Tochigi prefecture        | Idle assets     | Machinery, furniture,<br>fixtures and other | 82              | 744                             |
| Kasumigaura-shi<br>Ibaraki prefecture     | Business assets | Land  | 124             | 1,121                           |
| Andhra Pradesh state<br>Republic of India | Business assets | Building, machinery<br>and other            | 13,469          | 121,661                         |
|   |                 | Total                                       | ¥ 13,840        | \$125,018                       |

As a general rule, assets were grouped into business assets, idle assets and assets for rent. Idle assets and assets for rent were individually grouped by each item. For rent assets and idle assets that were in need for impairment due to the decline in fair value of land, and business asset's value has declined or to be disposed of, their carrying values were written down to the recoverable amounts.

Breakdown of the impairment loss by asset type for 2021 is as follows:

| Туре                     | Millions of yen | Thousands of U.S.<br>dollars |  |
|--------------------------|-----------------|------------------------------|--|
| Land                     | ¥124            | \$1,121                      |  |
| Building and structure   | 2,077           | 18,767                       |  |
| Machinery and equipment  | 10,087          | 91,118                       |  |
| Construction in progress | 460             | 4,156                        |  |
| Intangible assets        | 359             | 3,245                        |  |
| Other                    | 731             | 6,610                        |  |

The recoverable amounts of assets are estimated based on the net amount that those assets could be sold (net

selling amount) for land and buildings. The net selling amount is determined by the appraisal value based on real estate appraisal standards. Residual value is used in assessing the value of other assets except the above-mentioned when their recoverable amounts are difficult to obtain.

#### 15. Notes to Consolidated Statements of Comprehensive Income

The following table presents reclassification adjustments and tax effects allocated to each component of other comprehensive income as of March 31, 2021 and 2020:

| Details  | Millions | Millions of yen |           |  |  |  |
|--|----------|-----------------|-----------|--|--|--|
|  |          |                 |           |  |  |  |
| Unrealized holding gain (loss) on securities:        |          |                 |           |  |  |  |
| Gain (loss) arising during the current period        | ¥37,963  | ¥(24,773)       | \$342,907 |  |  |  |
| Reclassification adjustment for gain (loss) realized | (516)    | 5,331           | (4,664)   |  |  |  |
| Net current period change, before income taxes       | 37,446   | (19,401)        | (338,242) |  |  |  |

|--|----------|----------|---------------------------|
|  | 2021     | 2020     | 2021                      |
| Cash and time deposits                               | ¥404,754 | ¥321,427 | \$3,655,987               |
| Time deposits with maturities exceeding three months | (18,084) | (17,453) | (163,345)                 |
| Cash and cash equivalents                            | ¥386,670 | ¥303,974 | \$3,492,641               |

#### 1. Contents of important non-cash transactions

|   | Millions | of yen | Thousands of<br>U.S. dollars |
|---|----------|--------|------------------------------|
|   | 2021     | 2020   | 2021                         |
| Lease assets                              | ¥1,328   | ¥1,561 | \$11,999                     |
| Fixed assets others (Right-of use assets) | 2,505    | 14,076 | 22,634                       |
| Lease obligations                         | 3,834    | 15,926 | 34,634                       |

[Remarks]

\*Right-of use assets and lease obligations in the previous year increased by ¥13,119 million (\$120,548 thousand) and ¥13,406 million (\$123,189 thousand), respectively, due to the adoption of IFRS 16 Leases.

#### **17. Subsequent Events**

(Business combinations through acquisition)

The Company acquired all the shares in UD Trucks Corp. on April 1, 2021.

1. Overview of the business combination

(1) Name of the acquired company and business description

Name of the acquired company: UD Trucks Corp. (hereinafter referred to as "UDT")

Business description: Development, manufacture, export and sales of trucks; production and sales of parts for vehicles

#### (2) Main reason for the business combination

The auto industry has been facing a once-in-a-century upheaval, and particularly in the commercial vehicle segment, creation of new solutions including about advanced technologies is demanded to address various issues and challenges in the logistics industry, as well as to meet a wide variety of customer needs across the globe. The Company, sharing these issues and challenges with Aktiebolaget Volvo (hereinafter "AB Volvo," headquartered in Gothenburg, Sweden), executed agreements to form a strategic alliance with AB Volvo within the commercial vehicle segment on October 30, 2020, based on which the Company and AB Volvo will intend to closely collaborate with each other to deepen existing technologies and develop advanced ones, leveraging the complementary nature of the expertise of the two companies, as well as using the advanced technologies possessed by each and a larger customer base created by this strategic alliance.

As the first step for this strategic alliance, the Company acquired all the shares owned by AB Volvo in UDT (hereinafter the "UDT Share Acquisition"), in order to further strengthen its heavy-duty truck business in Japan and abroad and to swiftly achieve results of the strategic collaboration.

The Company, together with UDT, will aim to create synergies in the long run and solve issues and challenges facing the logistics industry in the future, based on the stronger and closer relationship with AB Volvo.

#### (3) Date of the business combination

April 1, 2021

(4) Legal form of the business combination

Share acquisition with cash as the consideration

(5) Name of the acquired business after the business combination No change

### (6) Percentage of the voting rights acquired

100.0%

#### (7) Basis for determining the acquirer

The Company acquired all the shares in UDT with cash as the consideration.

#### (8) Other items related to the overview of the business combination

In the wake of the UDT Share Acquisition, 14 subsidiaries and three affiliated companies of UDT have become Isuzu Group companies.

- 2. Acquisition cost of the acquired business and breakdown by type of consideration Consideration for the acquisition Cash ¥49,062 million (\$443,158 thousand) Acquisition cost ¥49,062 million (\$443,158 thousand)
  - (Note) The aforementioned consideration for the acquisition is tentative due to the fact that the share transfer agreement for the UDT Share Acquisition includes a transfer price adjustment clause. Since adjustments of the transfer price are expected, the final acquisition cost will change.

In addition, the said share transfer agreement includes an earn-out clause with ¥15,000 million as the upper limit to be paid. However, the aforementioned consideration for the acquisition does not include any amount to be paid according to the said earn-out clause.

The Company repaid in subrogation performance borrowings payable by UDT and its subsidiaries to AB Volvo Group companies (¥265,241 million). Consequently, the amount paid by the Company to AB Volvo for the UDT Share Acquisition amounted to ¥314,303 million, including the aforementioned consideration for the acquisition.

3. Descriptions and amounts of major acquisition-related costs

Advisory fees and commissions ¥1,900 million (\$17,162 thousand)

- (Note) The amount mentioned above is tentative, and thus the final amount could further change according to possible transfer price adjustments in the future.
- 4. Amount of goodwill, reasons for its occurrence, method and period of amortization This information has not yet been finalized.
- 5. Breakdown of assets acquired and liabilities assumed at the date of the business combination This information has not yet been finalized.

#### (Borrowing of funds)

The Company executed the following borrowing on April 1, 2021 in relation to the acquisition of shares in UD Trucks Corp.:

#### 1. Purpose of borrowing

To acquire the shares in UD Trucks Corp. and repay in subrogation performance debts payable by UD Trucks Corp. and its subsidiaries to AB Volvo Group companies.

#### 2. Name of Lender

Mizuho Bank, Ltd.

- Amount and conditions of borrowings
   Amount borrowed: ¥280,000 million (\$2,529,130 thousand)
   Borrowing interest rate: basic interest rate + spread
- Borrowing and repayment date Date of execution of borrowing: April 1, 2021 Repayment date: April 1, 2022
- 5. Assets pledged as collateral or any guarantee for borrowing None

#### (Disposal of treasury stock through third-party allotment)

The Company resolved, at its Board of Directors Meeting held on March 24, 2021, to dispose of its treasury stock through a third-party allotment, and the payment was completed on April 9, 2021.

#### 1. Overview of disposal

Number of treasury stock disposed of: 39,000,000 shares
 Disposal price: ¥1,098 per share (\$9.92)
 Total amount raised by disposal: ¥42,822 million (\$386,794 thousand)
 Method of disposal: through a third-party allotment
 Transferee: TOYOTA MOTOR CORPORATION
 Disposal date: April 9, 2021

#### 2. Purpose and reason for disposal

On March 24, 2021, the Company agreed with TOYOTA MOTOR CORPORATION (hereinafter referred to as "Toyota Motor") and Hino Motors, Ltd. on new collaboration efforts for CV business (hereinafter the "New Collaboration Efforts").

To smoothly develop and advance the New Collaboration Efforts, the Company, based on an agreement with Toyota Motor on a capital partnership, disposed of its treasury stock through a third-party allotment to Toyota Motor.

#### 18. Segment Information

#### (1) Segment information

Year ended March 31, 2021

The Company and its consolidated subsidiaries compose a single business segment, primarily engaged in the manufacture and sale of vehicles and its components and industrial engines. Therefore the disclosure of segment information is omitted.

#### (2) Related information

Year ended March 31, 2021

#### **Independent Auditor's Report**

The Board of Directors Isuzu Motors Limited

#### Opinion

We have audited the accompanying consolidated financial statements of Isuzu Motors Limited (the Company) and its consolidated subsidiaries (the Group), which comprise the consolidated balance sheet as at March 31, 2021, and the consolidated statements of income, comprehensive income, changes in net assets, and cash flows for the year then ended, and notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of Matter**

- 1. We draw attention to Note 17 to the consolidated financial statements, which describes the Company acquired all the shares in UD Trucks Corp. on April 1, 2021.
- 2. We draw attention to Note 17 to the consolidated financial statements, which describes the Company executed the borrowing on April 1, 2021 in relation to the acquisition of shares in UD Trucks Corp.

Our opinion is not qualified in respect of these matters.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of the audit of the consolidated financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters.

#### Impairment on property, plant and equipment

| Description of Key Audit Matter   | Auditor's Response  |
| As described in Note 2 n), Significant<br>Accounting Estimates, to the Consolidated<br>Financial statements, the Group recognized<br>¥9,887 million as accrued expenses for<br>specific warranty programs such as recalls in<br>the consolidated balance sheet as of March<br>31, 2021.<br>As described in the Note 2 n) to the<br>Consolidated Financial Statements, accrued<br>expenses for specific warranty programs such<br>as recalls are calculated using key<br>assumptions, such as the estimated number of<br>units and estimated costs per unit for each<br>specific warranty program.<br>The estimated number of units is calculated by<br>taking into account the expected number of<br>units affected depending on the specific<br>warranty programs reported to the relevant<br>government agencies.<br>The estimated costs per unit are calculated by<br>estimating the cost of parts and labor required<br>for individual repairs under specific warranty<br>programs reported to the relevant government<br>agencies.<br>Given that the significant assumptions above<br>are subject to uncertainty and require<br>management's judgement, we determined<br>specific warranty programs such as recalls to<br>be a key audit matter. | <ul> <li>We mainly performed the following audit procedures to assess accrued expenses for specific warranty programs such as recalls:</li> <li>Assessed the details of each specific warranty program reported to the relevant government agencies and the expected number of units affected under specific warranty programs in order to evaluate the uncertainty of estimates for the accrued expenses.</li> <li>Inspected the estimated documents related to individual repairs under specific warranty programs and assessed the rationality of the estimated costs per unit in order to evaluate the uncertainty of estimates with actual results related to the expected number of units to be affected and estimated costs per unit for specific warranty programs in order to evaluate the uncertainty of estimates for the accrued expenses.</li> <li>Compared the prior management estimates with actual results related to the expected number of units to be affected and estimated costs per unit for specific warranty programs in order to evaluate the uncertainty of estimates for the accrued expenses.</li> <li>Inspected the minutes of the "Quality Assurance CS Improvement Committee" meetings held up to the date of the audit report related to specific warranty programs including recalls in order to examine whether such accrued expenses were thoroughly recorded.</li> </ul> |

# Responsibilities of Management, the Corporate Auditor and the Board of Corporate Auditors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern and disclosing, as required by accounting principles generally accepted in Japan, matters related to going concern.

The Corporate Auditor and the Board of Corporate Auditors are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances for our risk assessments, while the purpose of the audit of the consolidated financial statements is not expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

A member firm of Ernst & Young Global Limited

A member firm of Ernst & Young Global Limited

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation in accordance with accounting principles generally accepted in Japan.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities
  or business activities within the Group to express an opinion on the consolidated financial
  statements. We are responsible for the direction, supervision and performance of the group
  audit. We remain solely responsible for our audit opinion.

We communicate with the Corporate Auditor and the Board of Corporate Auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Corporate Auditor and the Board of Corporate Auditors with a statement that we have complied with the ethical requirements regarding independence that are relevant to our audit of the financial statements in Japan, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Corporate Auditor and the Board of Corporate Auditors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

#### **Convenience Translation**

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2021 are presented solely for convenience. Our audit also included the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 to the consolidated financial statements.
