In both the above cases, please use the “Voting Right Exercise Code” and “temporary password”, as shown on the enclosed Voting Right Exercise Form and input your votes in accordance with the on-screen directions.
ii) To prevent improper access by persons other than the shareholders (imposters) or alteration of votes, we ask you to change your temporary password to a new one and obtain a special electronic identification (or transmit information concerning the particular cellular phone you are using).
iii) If you are not sure how to operate a personal computer or cellular phone relating to the exercise of voting rights via the Internet, please contact the Help Desk on the number below.
c) Treatment of voting rights exercised multiple times:
i) If you make multiple votes by using both the postal Exercise Form and the Internet site, the latter vote (the one cast via the Internet) shall be deemed effective.
ii) You are allowed to repeatedly cast your vote on the Voting Right Exercise site (to re-vote or make a correction). However, only the last vote you cast shall be deemed effective regardless of whether you use a personal computer or a cellular phone.
d) Treatment of votes which are neither for nor against:
If you do not cast a vote one way or the other for an agenda item, we shall assume that you have voted in favor.
e) Fees to access the Voting Right Exercise site:
Fees needed to access the Voting Right Exercise site (including the Internet provider’s connection fee and telephone charges) shall be borne by the shareholder. If you use a cellular phone, any fees such as packet communication fees and other fees for use of a cellular phone) shall also be borne by the shareholder.
f) IT environment for executing voting rights via the Internet:
i) Please note that, depending on your particular IT environment, you may not be able to exercise your voting rights via the Internet.
ii) To exercise voting rights with a cellular phone, you must be able to use one of the following services: i-mode, EZweb, or Vodafone live! Additionally, your cellular phone must have a function to send SSL encrypted communication and be capable of transmitting information about the cellular phone itself. Please understand, therefore, that you may not be able to vote with a cellular phone depending on the model and features of your phone.

If you have any questions about the systems, or any other enquiries, please contact:

1. Highlights of Operations
   
   (1) Review of Operations & Results (including the status of fund raising and capital investments)

   **Review of Operations**

   During the consolidated fiscal year, although Japan faced rising prices of crude oil and industrial materials, its economy saw a moderate recovery supported by the growth of consumer spending and facility investment, hinting at a prospective breakaway from deflation in the foreseeable future. Overseas, the economies of the US and the other Asian countries remained more or less steady.

   In Japan, as the replacement demand in response to the NOx (nitrogen oxide) and PM (particulate matter) Emission Regulations persisted, the truck market had a strong showing. Although there were concerns about the negative impact of high crude oil prices and other factors, the truck sales continued to grow rapidly in its major markets such as the ASEAN, Chinese and North American ones.

   Under the circumstances, in the first year of the Mid-term Business Plan formulated in 2004, for the period ending March 2008, the Company’s Group developed new products and strengthened the business structure to establish a solid corporate base to enable sustainable growth in the future under the new corporate vision of becoming “a global leading company in commercial vehicles and diesel engines.”

   The Group also promoted the development of trucks with high environmental and economic performances, striking a good balance between the two. The Company became one of the first to introduce diesel engines to different markets to comply with their most recent emission regulations through its persistent attempts to counteract global warming and urban air pollution.

   During the consolidated fiscal year, the Company launched in Japan such vehicles as the heavy-duty truck GIGA, the medium-duty truck FORWARD, the light-duty truck ELF CNG-MPI and the ELF DIESEL HYBRID, the heavy-duty tour bus GALA and GALA HIGH DECKER 9. In addition to these, the Company improved the features of the “Mimamori-kun On-line Service,”
which offers information on vehicle operation, and made this service available for commercial vehicles by all Japanese manufactures by connecting them to the newly developed “Mimamori Converter.” In November last year, this service received the Land, Infrastructure and Transportation Minister’s Prize of the 2nd Eco-Products Award (in the Eco-Service Division).

Regarding the business deployment overseas, the Company raised its ratio of capital contribution in Qingling Motors Co., Ltd., its manufacture and sales partner in China for medium- and light-duty commercial vehicles, from 6.9% to 20.0% through a tender offer. The Company also started discussing setting up engine manufacture and sales joint ventures with Qingling Motors.

The Company strengthened the manufacturing capabilities of pickup trucks at Isuzu Motors Co. (Thailand) Ltd. and launched capital investments worth 4 billion yen in a bid to construct an annual production capacity of about 200,000 units by 2007. It also expanded its overseas sales network by establishing a sales company in Mexico, and making a distributor in Australia a wholly owned subsidiary.

In Japan, the Company continued to expand its dealership reorganization program to integrate light-duty truck sales companies with those dedicated to heavy-duty trucks in the same regions throughout the country. Also, to centralize casting capabilities, one of its core functions, the Group conducted a share swap to merge Isuzu Castec Co., its wholly owned subsidiary, with its affiliate Automobile Foundry Co., of which the Company is a major customer; as a result, Castec became a wholly owned subsidiary of Automobile Foundry.

During the consolidated fiscal year, the Company played the central role as the Group made plant and equipment investment totaling 38.6 billion yen. Among the ongoing plant investments are the ones in facilities to manufacture new products or meet emission regulations, and in domestic dealership facilities, and vehicle assembly facilities in Thailand.

The Company also played the key role as the Group implemented programs for fund raising during the fiscal year. The major accomplishments included the issuance of unsecured straight bonds (worth a total of 40 billion yen) aimed at using the Group’s funds more efficiently.

Results of Operations
The sales volume of domestic vehicles during the consolidated fiscal year increased by 8,434 units (9.4%) to 98,174 units from the previous consolidated fiscal year, owing to the brisk economy and sales efforts. Total overseas sales amounted to 348,110 units, or an increase of 98,688 units (39.6%) from the previous fiscal year, due to increased sales of pickup trucks manufactured in Thailand and light-duty trucks, which were made possible through an enhanced overseas sales network. Consequently, the total sales volume in the domestic and overseas markets combined, showing an increase of 107,122 units (31.6%), amounted to 446,284 vehicles.

Sales of other products included exports of parts for overseas assembly, which decreased by 2.5 billion yen (3.7%) from the previous fiscal year to 65.7 billion yen as exports to China declined. Engine component shipments fell by 142.4 billion yen (40.7%) from the previous fiscal year to 207.7 billion yen, as domestic sales of pickup trucks in Thailand, which had been included in component sales previously, are now posted in the vehicle sales in the consolidated fiscal year owing to the consolidation of the manufacturing entity in Thailand.

Consequently, sales increased by 88.2 billion yen (5.9%) from the previous fiscal year to 1.5818 trillion yen. The breakdown of sales stands at 684.9 billion yen (up 9.5% from the previous fiscal year) for the domestic market and 896.8 billion yen (up 3.3% from the previous fiscal year) for overseas markets.

The table below shows the sales volume and value according to product.

With respect to the results of profit and loss, in spite of external factors such as an upward global trend of prices of steel products and crude oil, as well as cost increases associated with aggressive investments in research and development facilities to prepare for future growth, the Group has effectively reduced costs on the whole. Also, consolidated overseas subsidiaries
showed outstanding performance, especially in the ASEAN countries. All in all, operating profit increased 3.4 billion yen (4%) to 90.6 billion yen from the previous fiscal year, and working profit grew by 2.2 billion yen (2.5%) from the previous fiscal year to 93.8 billion yen. On the other hand, current net income dropped by 1 billion yen (1.8%) from the previous fiscal year to 58.9 billion yen as losses due to the special warranty cost and losses accompanied by the demolition of the Kawasaki Plant, as well as increased tax burdens for overseas subsidiaries. Both operating and working profits continued to set new records from the previous fiscal year.

Note: Amounts less than 100 million yen have been discarded.

Percentages are rounded to two decimal places.

(2) Challenges to be Met by the Group

Although there is a risk of another hike in crude oil prices, the Japanese economy is likely to remain firm, backed by improved employment and income conditions. Overseas, while the Asian economy will probably continue to be firm, oil prices hovering in high ranges and concerns about a slowdown of consumer spending in the US make it difficult to predict the overall situation.

In the automotive industry, the favorable impact of NOx and PM regulations will start to fade and demand will stagnate in the second half of the next consolidated fiscal year. The prices of industrial materials will continue to be high. The costs of safety as well as ecological measures will increase, and competition will further intensify in the Japanese and global markets, posing a greater challenge for corporate management.

Under such circumstances, the Group, placing the greatest emphasis on achieving the goals of the “Mid-term Business Plan,” will endeavor to establish a solid business foundation by enhancing the product lineup through the development of global and strategic products and the strengthening of product and market-specific business operations. At the same time, the Company will make increased efforts in quality control and improvement.

The shareholder’s continued support and guidance will be greatly appreciated.

(Notes) 1. Figures in parenthesis are losses.

2. Amounts less than ¥1 million are disregarded in the figures of Net Sales, Working Profit, Current Net Profit, Net Assets and Total Assets.

3. The current net profit per share for the 101st and 102nd term is determined by dividing the net income minus “the accounts not belonging to common stockholders” by the average number of the outstanding common shares (minus treasury shares) during each term. For the 103rd and 104th term, when it was possible to pay dividend, the current net profit per share is obtained by dividing the net income net of “the accounts not belonging to common stockholders” by the total of the average number of outstanding common shares (minus treasury shares) and the additional (incremental) number of common shares by the “if-converted” method for the “conversional participating shares.” Fractions less than 1/100th of a yen are rounded to the nearest sen (1/100th of a yen).

Net assets per share are indicated by dividing the net assets as of the end of the fiscal term net of the product (obtained by multiplying “the number of outstanding preferred shares” by “issue price”), and net of “the accounts not belonging to other common stockholders,” by the number of outstanding common shares (minus treasury shares) as of the end of fiscal term. Fractions less than 1/100th of a yen (sen) are rounded to the nearest sen.

(Progress of business tie ups)

On March 31, 2006, Automobile Foundry Co., Ltd., a major affiliate of the Company, swapped shares with Isuzu Castec Co., a wholly-owned subsidiary of the Company, on condition that Automobile Foundry Co., Ltd. became a parent company of Isuzu Castec Corporation and Isuzu Castec Co., became a wholly-owned subsidiary of Automobile Foundry Co., Ltd. As a result of this share swap, the Company’s equity stake in Automobile Foundry Co., Ltd. increased, and Automobile Foundry Co., Ltd. became a major consolidated subsidiary of the Company.

Qingling Motors Co., Ltd. (Qingling) became a major affiliate of the Company. The Company increased its equity stake in Qingling to 20% by making a partial offer for purchase of Qingling’s shares listed on the Hong Kong Stock Exchange, pursuant to the partial offer systems as provided by the Local Stock Exchange.

Furthermore, the Company bought shares in Isuzu General Motors Australia Limited (IGM), increasing its equity holding to 100%, and changed that company’s name from IGM to ‘Isuzu Australia Limited.’

The Company has 61 consolidated subsidiaries, 23 subsidiaries subject to the equity method, and 48 affiliated companies subject to the equity method.

These fees cannot be practically separated, either. The amount in 3. above shows the aggregate amount of these fees.
3. **Important Facts Relating to the Status of the Group that Arose after the Fiscal Term had Ended:**

**Dissolution of a capital alliance between the Company and General Motors Corp.**

On April 2006, the Company and General Motors Corp. (GM) agreed to dissolve their capital alliance. Accordingly, General Motors Ltd., wholly owned by GM, sold 40,000,000 shares, out of 90,090,000 common shares in the Company that it owned, to Mitsubishi Corporation. It also sold 40,000,000 shares to Itochu Corp., and 10,090,000 shares to Mizuho Corporate Bank. As a result, Mitsubishi Corporation now owns 42,420,000 common shares (3.72 %) in the Company; Itochu Corporation owns 48,251,000 common shares (equity ratio of 4.23%); and Mizuho Corporate Bank owns 41,931,411 common shares (3.67%). GM and the Company, however, have agreed to keep their business partnership the same as it has been.

(Additional Information)

On August 1, 2005, pension funds of several consolidated companies obtained approval from the Minister of Health, Labor and Welfare of exemption from the benefits related to future employee service under the substitutional portion. Estimated plan assets to be returned to the government on March 31, 2006 were 3,791 million yen. If the estimated plan assets had been returned to the government on March 31, 2006 and the transitional measurement of accounting standard for employees’ retirement benefits as stipulated in the Accounting Committees Report No.13, Article 44-2 by the Japanese Institute of Certified Public Accountants had been adopted, the effect of the adoption on the consolidated income statement for the year ended March 31, 2006 would be 3,033 million yen.

(6) Foreign currency translation

Receivables and payables denominated in foreign currencies are translated into yen at the exchange rate of the balance sheet date, and differences arising from the translation are included in the statements operation. The balance sheet accounts and revenue and expense accounts of the foreign consolidated subsidiaries are translated into yen at the exchange rate of the balance sheet date and translation adjustments are included in the foreign currency translation adjustment accounts of minorities interest and shareholders’ equity.

(7) Leasing accounting

Finance lease transactions, except those which meet the conditions that the ownership of the lease assets is transferred to the lessee, are accounted for on a basis similar to ordinary rental transactions.

(8) Hedge accounting

1. Hedge accounting
   - Forward foreign exchange contracts and currency options
     - Appropriated hedge accounting is adopted
   - Interest rate swaps and interest rate options
     - Deferral hedge accounting or exceptional accounting specified in the accounting standard concerning financial products is adopted

2. Hedging instrument and hedged items
   - Hedging instruments
     - Interest rate swaps, Interest rate options, Forward foreign exchange contracts and Currency options
   - Hedged items
     - Receivables and payables denominated in foreign currencies, Borrowings

3. Hedging policy
   - The company utilizes derivative financial instruments with receivables and payables denominated in foreign currency and borrowings for the purpose of hedging possible future fluctuation of market price.

4. Assessment of hedge effectiveness
   - Hedge effectiveness is determined by comparing the cumulative changes in cash flows from the hedging instruments with those from the hedged items.
   - However, assessment of effectiveness with interest rate swaps accounted by exceptional accounting is omitted.

5. Others
   - The company has its byelaw on derivative transactions and manages its transactions and risk management based on its byelaw. In the byelaw, policies, procedures, retention limits and reporting system is stipulated.

Among the bonds with warrant attached regarded as called on for substitution payment, for the warrant bonds thought to have the same economic substance as convertible bonds are accounted by composite method.

(10) Accounting for consumption tax

Transactions subject to consumption tax, are recorded at amounts exclusive of consumption tax.
6. Valuation of assets and liabilities of consolidated subsidiaries
   Assets and liabilities of consolidated subsidiaries acquired through business combinations are carried at fair value.

7. Amortization of consolidated adjustment account
   As for amortization of consolidated adjustment account, the company estimates the period when the account
   remains in effect, and equally amortize the account over certain years, as a general rule, for 20 years.

8. Appropriation of retained earnings
   The appropriation of retained earnings is reflected in each fiscal year when such appropriation is made by
   resolution of the shareholders.

9. Adoption of New Accounting Standards
   Accounting Standard for the Impairment of Fixed Assets
   From this fiscal year, Isuzu Motors Limited, its consolidated domestic subsidiaries and its equity method-applied
   domestic affiliates adopted the new accounting standard for impairment of fixed assets ("Opinion Concerning
   Establishment of Accounting Standard for Impairment of Fixed Assets" issued by the Business Accounting
   Deliberation Council on August 9, 2002) and the implementation guidance for the accounting standard for
   impairment of fixed assets (the Financial Accounting Standard Implementation Guidance No.6 issued by the
   Accounting Standards Board of Japan on October 31, 2003)
   The effect of adopting the new accounting standard on the consolidated statement of income for the year ended
   March 31, 2006 was to decrease income before income taxes by 2,600 million yen.
   Also, the impaired fixed assets are presented in the consolidated balance sheet net of accumulated impairment.

To the Board of Directors of Isuzu Motors Limited

We have examined the consolidated financial statements comprising the consolidated balance sheet and the consolidated profit & loss statement of Isuzu Motors Limited for the 104th term (April 1, 2005 through March 31, 2006), pursuant to Article 19 Item 2 Paragraph 3 of the “Law for Special Exceptions to Commercial Code Concerning Audit, etc. of Corporations (kabushiki kaisha).” The responsibility of formulating the consolidated financial statements rests with the management of the Company, and our responsibility is to express opinions about these consolidated statements from an independent standpoint.

Our examinations were made in accordance with auditing standards, procedures and practices generally accepted in Japan. The auditing standards require that we obtain reasonable assurance as to whether the consolidated financial statements are free of material misstatement. The audit was made on the basis of test audits, and it included the examination of the general account of the consolidated financial statements, including evaluation of the estimates made by the management as well as the auditing policy and application methods adopted by the management. We judge that, as a result of our audit, we can express our opinions with reasonable assurance. Further, the audit incorporated such auditing procedures on subsidiaries or consolidated subsidiaries as we considered necessary.

In our opinion, the consolidated financial statements referred to above present fairly and accurately the asset and profit and loss position of the group consisting of Isuzu Motors limited and its consolidated subsidiaries.

As disclosed in significant accounting policies, effective from this consolidated fiscal year, Accounting Standards for Impairment of Fixed Assets (Opinions Concerning Establishment of Accounting Standards for Impairment of Fixed Assets (Business Accounting Council, August 9, 2002)) and the Guideline on Accounting Standards for Impairment of Fixed Assets (Financial Accounting Standards Implementation Guidelines No. 6, October 31, 2003) are adopted. This change is deemed appropriate since the above-mentioned Standards and Guideline apply to the consolidated fiscal year that began on and after April 1, 2005.

There are no conflicts of interest between the Company, this auditing corporation and/or its managing partners that need to be reported under the Certified Public Accountant Law.

1. Accounting Standard for the Impairment of Fixed Assets
   Effective April 1 2005, the Company and its domestic consolidated subsidiaries adopted a new accounting standard for the impairment of fixed assets ("Opinion Concerning the Establishment of an Accounting Standard for the Impairment of Fixed Assets" issued by the Business Accounting Deliberation Council on August 9, 2002) and the "Implementation Guidelines on the Accounting Standard for the Impairment of Fixed Assets" (Business Accounting Standard Implementation Guideline No. 6 issued on October 31, 2003). The effect of this change was to decrease current term profit before taxes by 1,014 million.
   The cumulative impairment losses have been subtracted directly from the respective assets.

[ Additional Information]
Revaluation of Business Land
Revaluation of Business Land has been operated by "The law amending a part of the law for Land Revaluation(Promulgation Law No. 24, Mar 31, 1999). The tax equivalent to this Revaluation Variance has been stated Liabilities as "Deferred Taxes Liabilities ", the amount deducting this has been stated Capital as "Variance of Land Revaluation".
Date operating Revaluation Mar. 31, 2000
The method of Revaluation written to the above
To calculate the Land amount as the basis of calculating the taxable amount for the Land Tax written to Law 3-3 the Land Tax Law No. 16 on Law Enforcement No. 2-4 for Land Revaluation (Promulgation Government Ordinance No. 119, Mar 31, 1998), this Revaluation has been calculated by rational regulations of compensations
etc. to the current adjustments for the amount calculated by the methods which National Tax Administration Agency President established and published. But for a part of this Land the expert opinion has been accepted. The variance between the total amount of the at market value of the business land and the book amount of the land is 55,158.

To the Board of Directors of Isuzu Motors Limited

We have examined the balance sheet, profit & loss statement, and business report (accounting matters only), proposed appropriation of retained earnings and supplementary statements (accounting matters only) of Isuzu Motors Limited for the 104th term (April 1, 2005 through March 31, 2006), pursuant to Article 2 Item 1 of the “Law for Special Exceptions to Commercial Code Concerning Audit, etc. of Corporations (kabushiki kaisha).” Accounting matters for auditing in the business report and supplementary statements refer only to those that are based on records entered in the accounting books. The responsibility of formulating the financial statements and supplementary statements rests with the management of the Company, and our responsibility is to express opinions about these statements from an independent standpoint.

Our examinations were made in accordance with auditing standards, procedures and practices generally accepted in Japan. The auditing standards require that we obtain reasonable assurance as to whether the financial statements and supplementary statements are free of material misstatement. We based our audit on test audits, and it included the examination of the general account of the financial statements and supplementary statements, including evaluation of the estimates made by the management, as well as the auditing policy and application methods adopted by the management. We feel that, as a result of our audit, we can express our opinions with reasonable assurance. Further, the audit incorporated such subsidiary auditing procedures as we considered necessary.

In our opinion:

(1) The Balance Sheet and the Profit & Loss Statement referred to above present fairly the status of assets and profitability of the Company in conformity with the laws, regulations and the Articles of Incorporation.

As disclosed in significant accounting policies, effective from this consolidated fiscal year, Accounting Standards for Impairment of Fixed Assets (Opinions Concerning Establishment of Accounting Standards for Impairment of Fixed Assets (Business Accounting Council, August 9, 2002)) and the Guideline on Accounting Standards for Impairment of Fixed Assets (Financial Accounting Standards Implementation Guidelines No. 6, October 31, 2003) have been adopted. This change is deemed appropriate since the above-mentioned Standards and Guideline apply to the consolidated fiscal year that began on and after April 1, 2005.

(2) The Business Report (accounting matters only) presents fairly the status of the Company in conformity with the laws, regulations and the Articles of Incorporation.

(3) The proposed appropriation of retained earnings conforms to the laws, regulations and the Articles of Incorporation.

(4) The Supplementary Statements (accounting matters only) include nothing that needs to be reported with regard to the provisions of the Commercial Code.

The Business Report also includes a statement concerning a post-balance sheet event in which Isuzu Asia Motors Limited, a consolidated subsidiary, made a resolution to pay dividends to Isuzu Motors Limited.
There are no conflicts of interest between the Company, this auditing corporation and/or its managing partners that need to be reported under the Certified Public Accountant Law.

We, the Board of Corporate Auditors, have received reports from each auditor concerning the outcome of audit of the Isuzu directors’ execution of duties, including the auditing procedures used in the audit, during the 104th business term (April 1, 2005 through March 31, 2006). We discussed the contents of each report, and prepared this audit report. The outline of our report is as follows:

1. **Summary of the audit procedures adopted**

   In accordance with the audit standards for corporate auditors and the audit plan stipulated by the Board of Corporate Auditors, we have attended board meetings and other important meetings, received business performance reports from directors and employees, and examined important documents submitted to management for approval. We have also investigated the status of operations and assets at the head office and other major places of business, and obtained business performance reports from subsidiaries as required. Further, we have received reports and explanations from the accounting auditor, and examined Financial Statements and Supplementary Statements.

   We have further audited the matters concerning director’s competitive transactions, transactions possibly causing a conflict of interest between directors and the Company, free-of-charge provision of profits by the Company, unusual transactions with subsidiaries or shareholders and acquisition or disposition of treasury stock. In such audit, we have investigated the status of these transactions in detail by following the above auditing procedure, while receiving reports from directors and employees, as required.

2. **Results of the audit**

   (1) We recognize that the auditing procedures employed by Shin Nihon & Co., our accounting auditor, and the results of the audit are fair and just.

   (2) We recognize that the business report gives a true and fair view of the state of affairs of the Company in accordance with the laws, regulations and the Articles of Incorporation.

   (3) With respect to the proposed appropriation of retained earnings, there is nothing that needs to be reported with reference to the status of the Company’s assets and other circumstances.

   (4) The supplementary statements correctly indicate all the necessary items to be specified, and there is nothing that needs to be reported.

   (5) With respect to the directors’ execution of duties, we have found neither irregularities nor violations of the law, regulations or Articles of Incorporation.

   Further, regarding directors’ competitive transactions, transactions causing a conflict of interest between the directors and the Company, free-of-charge provision of interests by the Company, and unusual transactions with subsidiaries or shareholders, acquisition, or disposition of treasury stock, we have found that no director neglected his duties.

Note: Standing Corporate Auditor Shigeaki Wakabayashi, Corporate Auditor Yasuharu Nagashima and Corporate Auditor Susumu Tsuchida are outside auditors as specified in Article 18 Paragraph 1 of the “Law for Special Exceptions to Commercial Code Concerning Audit, etc. of Corporations (kabushiki kaisha).”
Proposal No. 1: Approval of the Proposed Appropriation of Retained Earnings for the 104th Business Period.

We propose to appropriate the retained earnings in the manner described on page 32 of the attached document.

We would like to offer a common stock dividend for the current term of ¥3.00 per share to our shareholders, after giving due and comprehensive consideration to factors such as the business results of the current term, future business plans, and the distribution of profits to shareholders.

We will pay preferred stock dividends of ¥6.944 per share for Class-I preferred stock, ¥12.944 per share for Class-III preferred stock, and ¥16.944 per share for Class-IV preferred stock to our shareholders, in accordance with the predetermined conditions of dividend issuance.

We cordially ask for the approval of the shareholders for these proposals.

Proposal No. 2: Partial Amendments to the Articles of Incorporation

1. Reasons for revision
   a) In connection with enforcement of the Corporate Law (Law No. 86, 2005), the Company’s Articles of Incorporation shall be wholly revised as required, including revision of wordings of the Articles of Incorporation, changes of expression thereof, addition/deletion of articles, etc.

   b) In accordance with provisions of the ‘Law concerning Establishment of Relevant Legislation Relative to Enforcement of Corporate Law’ (Law No. 87, 2005), the Company’s Articles of Incorporation shall clearly establish any provisions which are deemed to be defined under the Articles of Incorporation, even if they are not provided in the Articles of Incorporation. The articles involved include Article 4 (Organizations), Article 9 (Issue of Share Certificates), and Article 13 (Shareholders Register Manager).

   c) In accordance with the Corporate Law, the Company can use some new systems by clearly establishing specific provisions in the Company’s Articles of Incorporation. To adopt such systems, the Company’s Articles of Incorporation shall be added or modified to include these required provisions. The articles involved include Article 19 (Deemed Provision of Shareholders’ Meeting Reference Materials and Other Information by Publication on the Internet), Article 31 (Omission of Board of Directors Resolutions), Article 36 (Agreement to Limit Liabilities of Outside Directors), and Article 46 (Agreement to Limit Liabilities of Outside Auditors).

   d) Article numbers of the Company’s Articles of Incorporation shall be changed to reflect the above revision.

Article 5: (Provisions omitted)

Article 6: (Total number of shares issuable by the Company)

The number of shares issuable by the Company shall total three billion four hundred fifty-six million five hundred thousand (3,456,500,000) shares, which are broken down into:
- 3,369,000,000 common stocks,
- 37,500,000 Class-Ⅰ preferred stocks,
- 25,000,000 Class-Ⅲ preferred stocks,
- 25,000,000 Class-Ⅳ preferred stocks.

Article 7: (Acquisition of treasury stocks)

Pursuant to Article 165-2 of the Corporate Law, the Company may acquire treasury stocks through market transactions, etc., as stipulated for in Article 165-1 of the Corporate Law subject to resolution of the Board of Directors meeting.

Article 8: (The same as the provision defined in Article 7 of the current Article of Incorporation of the Company)

Article 9: (Issue of Share Certificates)

The Company shall issue share certificates for those shares.

Article 7-2: (Share certificates of odd-lot shares falling short of no-par-value unit stock)

The Company shall not issue share certificates of odd-lot shares falling short of the 'no-par-value unit stock' (hereinafter referred to as the "odd-lot shares").

Article 8: (Provisions omitted)

Article 9-2: (Share Handling Regulation)

The procedures for entry or record in shareholders register (including beneficiary shareholders register, the same below), stock acquisition right register and share certificate loss register, and purchase of any odd-lot shares falling short of one unit of 'no-par-value stock,' registration of pledge of shares, registration of shares in trust, delivery of re-issued share certificates, and any other procedures concerning share handling shall be governed by the Share Handling Regulation established by resolution of the Board of Directors.
Article 10: (Transfer Agent)
The Company shall appoint a transfer agent to handle its shares. The transfer agent and its place of business shall be designated by a resolution of the Board of Directors, and public notice thereof shall be given. The register of shareholders and the register of virtual shareholders of the Company (hereinafter referred to as the "register of shareholders, etc.") and the register of lost share certificates shall be maintained at the place of business of the transfer agent, and the registration of transfer of shares, application for registration of loss of share certificates, purchase of any odd-lot shares smaller than the "no-par-value unit stock," and other procedures mentioned in the preceding Article shall be handled by the transfer agent and not by the Company.

Article 11: (Notification of name, address, and seal)
Shareholders (including virtual shareholders, hereinafter, this word will be used in the same sense), registered pledgees or their legal representatives must notify the companies, addresses and seals to the transfer agent designated by the Company. The same procedure must be taken in case any change occurs in these matters.

Article 12: (Provisional address of foreign resident)
Shareholders, registered pledgees or their legal representatives who do not domiciled or resident in Japan shall set up their provisional addresses in Japan and notify such addresses to the transfer agent designated by the Company. The same procedure must be taken in case any change occurs in these matters.

Article 13: (Establishment of record date)
The Company shall regard shareholders described or recorded on the register of shareholders, etc. as of the last day of each business term or term as shareholders entitled to exercise their rights at a general meeting of shareholders for such business term. Notwithstanding the provisions of the preceding paragraphs, a different record date may be set by resolution of the Board of Directors.

Article 13-2: (Class-Ⅰ preferred stock)
Class-Ⅰ preferred stock is issued by the Company pursuant to the provisions set forth below:

1. (Dividend on Class-Ⅰ preferred stock)
When the Company pays dividends pursuant to Article 48, the Company shall pay dividends to the shareholders of Class-Ⅰ preferred stock ("Class-Ⅰ preferred shareholders") or to the registered mortgagees of Class-Ⅰ preferred stock ("Class-Ⅰ preferred stock mortgagee") or to registered mortgagees of common stock ("common stock mortgagee"). The Company shall pay the amount determined by the Board of Directors with a maximum amount of ¥80 per annum ("Class-Ⅰ preferred dividend").

2. (Interim dividend payable to Class-Ⅰ preferred shareholders)
The Company shall not pay interim dividends to Class-Ⅰ preferred shareholders or to Class-Ⅰ preferred stock mortgagees.

Article 14: (Notification of name, address, and seal)
Shareholders (including beneficiary shareholders, hereinafter referred to as the "shareholders") or registered mortgagees must notify the Company about their names, addresses and seals. In case of any change thereof, they shall notify the manager thereof, as well.

Article 15: (Provisional address of foreign resident)
When shareholders, registered pledgees or legal representatives do not domicile or reside in Japan, they shall set up their provisional addresses in Japan and notify the Shareholders Register Manager designated by the Company about such addresses. In case of any change of addresses, they shall notify the manager thereof, as well.

Article 16: (Establishment of record date)
The Company shall regard shareholders described or recorded in the Register of Shareholders as of the closing day of each business year as shareholders entitled to exercise their rights at a general meeting of shareholders for the said business year. Notwithstanding the provisions of the preceding paragraphs, the Company may set a different record date temporarily subject to resolution of the Board of Directors.

Article 16-2: (Class-Ⅰ preferred stock)
The Company shall issue Class-Ⅰ preferred stock as defined below:

1. (Dividend on Class-Ⅰ preferred stock)
The Company shall pay term-end dividends pursuant to Article 48. The dividends shall be paid to Class-Ⅰ preferred stock shareholders ("Class-Ⅰ Preferred Stock Shareholders") or registered pledgees of Class-Ⅰ preferred stock ("Class-Ⅰ Preferred Stock Pledgees") prior to any dividends are paid to the shareholders of common stock ("common shareholders") or to the registered mortgagees of common stock ("common stock mortgagee"). The amount of dividends on Class-Ⅰ Preferred Stock ("Class-Ⅰ Preferred Stock Dividends") shall be as per predetermined by the Board of Directors at time of issuance of the preferred stock, and the said shall be paid in money from surplus, provided it shall be up to ¥80 per annum per share.

2. (Interim dividend payable to Class-Ⅰ preferred stock shareholders)
The Company shall not pay interim dividends to Class-Ⅰ preferred stock shareholders or to Class-Ⅰ preferred stock mortgagees.
3. (Distribution of residual property to Class-I preferred shareholders) When the Company distributes any residual property, the Company shall pay ¥800 per share of Class-I preferred stock to Class-I preferred shareholders or Class-I preferred stock mortgagees before any distributions are made to the common shareholders or the common stock mortgagees. The Company shall not make any additional distributions to Class-I preferred shareholders or Class-I preferred stock mortgagees in addition to the said distribution.

4. (Cancellation of Class-I preferred stock) The Company shall be authorized from time to time to acquire Class-I preferred stock with surpluses available for distributions and to cancel the reacquired stock at a cost equal to the amount paid in the reacquisition.

5. (Voting rights of Class-I preferred stock) Class-I preferred shareholders shall not have any voting right at any of the Company’s Meetings of Shareholders.

6. (Split, reverse-split or stock warrants, etc. of Class-I preferred stock) Unless otherwise statutorily provided for, the Company shall neither split nor reverse-split Class-I preferred stock. Nor shall the Company grant Class-I preferred shareholders stock warrants or subscription rights to new stock or subscription rights to bonds with stock warrants.

7. (Subscription to converting Class-I preferred stock) Class-I preferred shareholders shall be authorized to claim the conversion of Class-I preferred stock into common stock pursuant to the conditions determined by the Board of Directors during the period determined by the Board of Directors in which Class-I preferred shareholders are eligible to make the conversion.

8. (Class-I preferred stock compulsory conversion clause) In the case where Class-I preferred shareholders do not convert their Class-I preferred stock during the period in which they are eligible to make the conversion, as stated in the preceding paragraph, their Class-I preferred stock shall be converted into common stock on the date set by the Board of Directors which is held on the day following the closing of the eligible period (“conversion reference date”) or thereafter. The number of shares of common stock shall be computed by dividing the amount paid for one share of Class-I preferred stock by the average of the closing prices (including quoted price) of the Company’s common stock traded on the Tokyo Stock Exchange over thirty (30) transaction days (excluding any days for which closing price is not available) beginning forty-five (45) days prior to the conversion reference date. The average price of the common stock shall be calculated to one decimal place and then rounded up.

In the case where the average price of the common stock exceeds the upper limit of the conversion price determined by the Board of Directors (Case I), or is below the lower limit thereof (Case II), the amount paid for one share of Class-I preferred stock is divided by the upper limit of the conversion price (Case I), or is divided by the lower limit thereof (Case II) in computing the number of shares of common stock.

3. (Distribution of residual property to Class-I preferred shareholders) When the Company distributes any residual property, the Company shall pay ¥800 per one share of Class-I preferred stock to Class-I preferred shareholders or Class-I preferred stock mortgagees prior to common stock shareholders or common stock mortgagees. The Company shall not pay to Class-I preferred shareholders or Class-I preferred stock mortgagees any additional distributions other than the said distribution mentioned earlier.

4. (Cancellation of Class-I preferred stock) The Company may acquire Class-I preferred stock at cost any time pursuant to laws and ordinances subject to consent of Class-I preferred stock shareholders and cancel them pursuant to laws and ordinances.

5. (Voting rights of Class-I preferred stock) Class-I preferred stock shareholders shall not have any voting right at a General Meeting of Shareholders of the Company.

6. (Reverse-split or split of Class-I preferred stock or stock acquisition right, etc.) Unless otherwise provided by law, the Company shall neither split nor reverse-split Class-I preferred stock. The Company shall not grant Class-I preferred stock shareholders any rights to subscribe for offering for shares and share acquisition right. The Company shall not grant Class-I preferred stock shareholders any free allocation of shares or share acquisition right.

7. (Right of request for acquisition of Class-I preferred stock) Class-I preferred stock shareholders may request the Company to issue common stocks in exchange for Class-I preferred stock during an effective period of request for conversion of the preferred stock as predetermined by the Board of Directors. The number of common stocks issued thus shall be computed by using the computation method shown under resolution of the Board of Directors. If any odd-lot shares less than one share are included in the number of common shares issued by the Company based on the above request, the odd-lot shares shall be handled pursuant to Article 167-3 of the Corporate Law; however, the second sentence of the said paragraph shall not be applied.

8. (Comprehensive acquisition of Class-I preferred stock) In case the Class-I preferred shareholders fail to request that the Company acquires their Class-I preferred stock during the prescribed period of request for conversion, Class-I preferred stocks shall be all acquired on the date set by the Board of Directors which is held on and after the day following the Closing Day of the said period (“Comprehensive Acquisition Day”). In exchange for such acquisition, the Company shall issue Common Stocks to Class-I preferred stock shareholders. The number of the common stocks issued thus shall be computed by dividing the amount paid for one share of Class-I preferred stock by the average of the closing prices (including Indicative Price) of the Company's common stocks through regular transactions on the Tokyo Stock Exchange, from forty-five (45) days prior to the Comprehensive Acquisition Day, excluding any days on which closing price is not available. The average price of the common stocks shall be calculated to one decimal place, and then rounded up as a whole number.

In case the average price of the common stock exceeds the upper limit of the conversion price as determined by resolution of the Board of Directors (Case I), the amount paid for one share of Class-I preferred stock is divided by the upper limit of the conversion price (Case I), or is divided by the lower limit thereof (Case II) in computing the number of shares of common stock.
9. (Exclusion period for claiming Class-1 preferred stock dividend)
The provisions of Article 44 shall apply to dividends on Class-1 Preferred Stock.

Article 13-3: (Class-III preferred stock)
The provisions of Article 13-2 shall apply to Class-III Preferred Stock issued by the Company.

Article 13-4: (Class-IV preferred stock)
Class-IV preferred stock is issued by the Company pursuant to rules set forth below:
1. (Dividends on Class-IV preferred stock)
When the Company pays dividends pursuant to Article 42, the Company shall pay dividends to the shareholders of Class-IV preferred stock (“Class-IV preferred Shareholders”) or to the registered mortgagees of Class-IV preferred stock (“Class-IV preferred stock mortgagees”) before any dividends are paid to the common shareholders or to the common stock mortgagees. The Company shall pay the amount determined by the Board of Directors with a maximum amount of dividends of ¥80 per annum (“Class-IV preferred dividend”).

2. (Applicability of provisions)
The provisions from Article 13-2, Section 2 to Section 9 shall apply to Class-IV preferred stock.
