

## Introduction of TFT Program to Fujisawa and Tochigi Plants

The TFT (TABLE FOR TWO) Program, which is run in Isuzu Oomori head office, was introduced to the Fujisawa and Tochigi plants on May 28th.

This gives employees more opportunities to take part in the TFT Program, thus providing school lunch to more children in developing countries.

### The Isuzu TFT Program

When employees contribute money, either by selecting a certain menu item (something healthy, for example) or by direct donation, our company matches the amount of money contributed, and the total is used to provide school lunches to children in developing countries through our the TFT Office.

Like the Oomori head office's cafe, the Fujisawa cafe has begun offering a euglena latte as the TFT menu item.
