

Isuzu Monozukuri Service Training Center was certified by Kanagawa Prefecture as an "Environmentally Integrated City-Building Project"

Isuzu Monozukuri Service Training Center (Fujisawa City, Kanagawa Prefecture) was certified on September 29th, 2015 by Kanagawa Prefecture as an "Environmentally Integrated City-Building Project" and received a certificate on the same day from the Kanagawa Prefectural government.

The certificate conferred by
Kanagawa Prefecture

"Environmentally Integrated City-Building Project" certification in Kanagawa Prefecture

The "Environmentally Integrated City-Building Project" certification is based on the "Guidelines for Building Environmentally Integrated Model Cities in Urban Areas of the Central and Shonan Regions", which are used in Kanagawa Prefecture to create cities that have symbiotic relationships with the environment in the central and Shonan regions.
