

Opened a diesel engine education course in IAMI's regional vocational training school (Indonesia)

P.T. Isuzu Astra Motor Indonesia:IAMI opened the “Isuzu Educational Program” in the vocational school “SMK Mandiri Medan” in Medan, North Sumatra, which teaches the latest diesel technology such as common rail. An opening ceremony was held on December 22.

This is the second opening of an IAMI education course, following the opening of the SMK 2 Klaten School (Yogyakarta) in October 2014.

IAMI is actively pursuing “education” as one of the pillars of its CSR activities.

A commemorative photograph taken with students.

Engines and industrial tools were also donated.
