

## Participation in the 9th “Mt. Fuji Forestation Project”

May, 2016

On May 28, a total of 78 people from Isuzu Headquarters, Fujisawa area and Tochigi area participated in the 9th “Mt. Fuji Forestation Project.”

This project aims to restore the forests of Mt. Fuji so that they have a diversity of plant species and a robust ecosystem, and Isuzu has been involved since 2008.

They prepared fully with warm-up exercises before starting to work

Children and adults alike enjoyed planting trees, inspired by Mt. Fuji’s occasional pleasant breeze
