1. Overview of Financial Results and Financial Position

(1) Overview of Financial Results

①Financial Results for FY2017 ended March 2017

In the current consolidated fiscal year, vehicle sales volume in Japan increased by 9,812 units (13.9 %) over the previous consolidated fiscal year to 80,341 units. Vehicle sales volume outside Japan decreased by 11,589 units (2.6%) compared with the previous consolidated fiscal year to 425,978 units as sales in emerging countries/resource-rich countries declined while sales in North America and other advanced economies grew steadily. Consequently, total consolidated vehicle sales volume in Japan and overseas combined fell by 1,777 units (0.3%) from the previous consolidated fiscal year to 506,319 units.

As regards sales amounts of products other than vehicles, overseas production parts sales declined by 23.7 billion yen (29.0%) year-on-year to 58.0 billion yen, engine and component sales rose by 10.2 billion yen (11.0%) over the previous consolidated fiscal year to 103.3 billion yen, and other sales gained by 13.1 billion yen (3.6%) from the previous consolidated fiscal year to 383.2 billion yen as a result of growth in the vehicle life-cycle management business such as after-sales services.

As the result, net sales grew by 26.2 billion yen (1.4 %) compared with the previous consolidated fiscal year to 1,953.1 billion yen. This comprised 788.4 billion yen posted for Japan, up 13.7% year-on-year, and 1,164.7 billion yen for the rest of the world, down 5.6% from the previous consolidated fiscal year.

Operating income stood at 146.4 billion yen, down 14.6% compared with the previous consolidated fiscal year mainly because of the drop in overseas sales accompanied by the impact of the strong yen, despite the rise in sales for Japan. Ordinary income amounted to 152.0 billion yen, down 18.6% year-on-year, and net income attributable to owners of the parent reached 93.8 billion yen, down 18.2% from the previous consolidated fiscal year.

②Forecast for FY2018 ending March 2018

In FY 2018 ending March 2018, we expect that the difficult sales environment in emerging countries/resource-rich countries will continue. However, we will keep increasing sales by developing and expanding our LCV business in Thailand and vehicle life-cycle management business including after-sales services.

On the profit front, we aim to increase earnings by further expanding sales and thoroughly reducing costs, whereby increases in R&D expenses and costs of raw materials such as steel will be more than offset.

The Company forecasts the consolidated business results for the year ending March 31, 2018 as follows:

Net sales 1,990 billion yen Operating income 152 billion yen Ordinary income 157 billion yen

Net income attributable

to owners of the parent 99 billion yen

*This forecast for FY2018 consolidated fiscal year is considered reasonable by the Company based on information available today. Hence, this forecast is subject to uncertainty arising from a possible change to world economic and/or market conditions and exchange rates as well as other risk factors.

Actual financial results may differ considerably from this forecast. The above, therefore, should not be the sole basis for any investment decision.

(2) Overview of Financial Position

① Assets, Liabilities and Net Assets

Total assets as of the end of the current consolidated fiscal year rose 71.5 billion yen to 1,880.8 billion yen.

This is primarily because gains in property, plant and equipment of 37.2 billion yen, in lease receivables and investment assets of 22.6 billion yen, in notes and accounts receivable-trade of 7.2 billion yen, in inventories of 6.8 billion yen, and in investment securities of 5.4 billion yen were partially offset by decreases in cash and deposits of 10.4 billion yen and in deferred tax assets of 4.3 billion yen.

Liabilities grew by 7.0 billion yen from March 31, 2016 to 918.7 billion yen mainly due to an increase in accounts payable-other of 12.3 billion yen in other of current liabilities.

Net assets increased by 64.4 billion yen from March 31, 2016 to 962.1 billion yen. This is chiefly because 93.8 billion yen posted as net income attributable to owners of the parent was partially offset by declines in retained earnings of 25.2 billion yen as a result of dividend payments, in foreign currency translation adjustment of 12.2 billion yen, and in non-controlling interests of 2.6 billion yen.

The capital adequacy ratio stood at 43.5% compared with 41.5% as of March 31, 2016. Interest-bearing liabilities fell by 11.4 billion yen from March 31, 2016 to 247.2 billion yen.

② Cash flows Data

Cash and cash equivalents (hereinafter referred to as "funds") at the end of the current consolidated fiscal year stood at 260.6 billion yen, an increase of 1.4 billion yen from March 31, 2016; more specifically, out of 151.3 billion yen of funds from operating activities, 87.3 billion yen and 55.3 billion yen were used in investing activities and financing activities, respectively.

Free cash flows, calculated as operating cash flows minus investing cash flows, recorded an inflow of 63.9 billion yen, up 76.6% from March 31, 2016.

[Cash Flow from Operating Activities]

Funds provided by operating activities came to 151.3 billion yen, up 13.8% from March 31, 2016. On one hand, inflows of 148.9 billion yen and 63.1 billion yen were recorded for profit before income taxes and depreciation, respectively, while on the other hand, outflows were recorded due to increases in notes and accounts receivable-trade of 5.7 billion yen, in inventories of 7.7 billion yen, and in lease receivables and investment assets of 22.6 billion yen, and to income taxes payment of 47.2 billion yen.

[Cash flow from Investing Activities]

Funds used in investing activities amounted to 87.3 billion yen, down 9.7% from March 31, 2016. This is primarily attributable to purchase of noncurrent assets of 101.6 billion yen.

[Cash flow from Financing Activities]

Funds used in financing activities stood at 55.3 billion yen, down 17.0% from March 31, 2016.

This is mainly because outflows of 42.9 billion yen for repayments of long-term loans payable, of 13.9 billion yen for net decrease in short-term loans payable, of 25.2 billion yen for cash dividends paid, and of 17.9 billion yen for dividends paid to non-controlling interests were partially offset by an inflow of 47.0 billion yen for proceeds from long-term loans payable.

(3) Basic Policy regarding Earnings Appropriation and Dividend for FY2017 and FY2018

The Company deems dividend payment to shareholders and repurchase of its own stock as important actions for corporate management. Thus, when it decides to do so, it carefully assesses and secures an optimal balance between rewarding shareholders in a continuous and stable manner and securing an optimal amount of retained earnings for building a stronger business foundation and future business development.

The Company plans to submit a proposal to its ordinary general meeting of shareholders that it will pay a year-end dividend of 16 yen per share.

In the next term, it plans to pay an interim dividend of 16 yen per share and a year-end dividend of 16 yen per share.

2. Management Policy

(1) Basic Policy for Corporate Management

In pursuit of harmony with society and the environment, Isuzu Group aspires to grow together with customers as their trustworthy partner. Towards this goal, we have the following corporate vision and mission:

Corporate Vision: Isuzu will always mean the best

A leader in transportation, commercial vehicles and diesel engines, supporting our customers and respecting the environment

Isuzu Corporate Mission: Trust, Action, Excellence

A global team delivering inspired products and services committed to exceeding expectations

(2) Mid- to Long-Term Corporate Business Policy and Challenges to Address

The Company has developed a new Mid-Term Business Plan (from April 2015 through March 2018). This new Mid-Term Business Plan calls for further expansion of the Company's growth strategy under the previous mid-term business plan, propelled by two operations of engineering, sourcing and manufacturing, and of after-sales, the two of which will be closely linked and seamlessly run like two wheels.

Under the new business plan, Isuzu will focus more on "Isuzu Involvement in Distribution Business" and "Enhancement of Aftersales Business", the tasks carried over from the previous mid-term business plan, and in doing so it will firmly put in place "Operation to Minimize Downtime" (after-sales) in addition to the already established "Engineering, Purchasing and Manufacturing Operations". To that end, the plan sets forth six initiatives as described below, and by pushing for these initiatives, Isuzu aims to increase its global presence to that extent that it will be genuinely needed by customers around the world.

■ Six Initiatives

- 1) Push for global 3 plus 2 core business organizations.
- 2) Boost product portfolio and technology.
- Expand after-sales business in emerging countries while refining the business model in advanced nations.
- 4) Move marketing function closer to markets.
- 5) Link two operations of engineering, sourcing and manufacturing, and of after-sales.
- 6) Lay a corporate foundation in support of next generation.

Through its efforts to achieve the above, Isuzu will aim to expand the scope of its business and to build a two-wheel-model where "Engineering, Sourcing and Manufacturing Operations" and "Operation to Minimize Downtime" are closely linked and seamlessly run like two wheels. At the same time, this effort will help the Company realize its corporate vision "Isuzu will always mean the best: A leader in transportation, commercial vehicles and diesel engines, supporting our customers and respecting environment".

Meanwhile, Isuzu will keep proper capital efficiency. At the same time it will maintain and improve the stable profitability and financial structure, while sufficiently investing in the growth strategy in order for its sustainable growth to stay on its desired path.

3. Basic Concept on Choice of Accounting Standards

The Company prepares its consolidated financial statements under standards applicable in Japan in light of the ability to compare businesses and periods of financial statements.

Isuzu may consider the application of international accounting standards upon reviewing circumstances in and outside Japan.

4. Consolidated Financial Statements

[Changes in Accounting Policies]

(Application of the implementation guidance on recoverability of deferred tax assets)

"Implementation guidance on recoverability of deferred tax assets" (ASBJ Guidance No.26, March 28, 2016, henceforth referred to as "Implementation guidance on recoverability"), has been applied from the beginning of this first fiscal quarter and the accounting treatment for recoverability of deferred tax assets was partially reviewed.

As for the application of Implementation guidance on recoverability, the company follows the transitional treatment stipulated at Implementation guidance on recoverability Article 49, Paragraph 4, and the difference of the amount of deferred tax assets and liabilities calculated if "Implementation guidance on recoverability" No.49, Paragraph 3, Item 1 to 3 are applied at the beginning of this first fiscal year, and that of deferred tax assets and liabilities at the end of the previous fiscal year was summed up to the retained earnings at the beginning of this first fiscal year.

As a result, the impact of above on deferred tax assets (Investment and other assets) and retained earnings is immaterial.

(Application of practical solution on accounting for changes in depreciation method related to the 2016 Tax Law changes)

Following the amendment of Japanese corporate tax law, the company adopted "practical solution on accounting for changes in depreciation method related to the 2016 Tax Law changes" (ASBJ Practical Task Force No.32, June 17, 2016) for this first quarter, and the way to depreciate buildings and structures was changed from declining-balance method to straight-line method. The impact of this change to financial statement for this third quarter is immaterial.

[Change in fiscal term of overseas subsidiaries]

To disclose the consolidated financial results more appropriately, however, six consolidated subsidiaries in North America and one in Australia changed their fiscal year-end date to March 31, effective the current consolidated fiscal year. Due to this change, their accounts were settled for the 15-month period from January 1, 2016 through March 31, 2017

This change has minimal effect on the consolidated financial statements.

[Segment Information]

The Company and its consolidated subsidiaries are composed of a single business segment, primarily engaged in manufacture and sale of vehicles and its components, industrial engines. Therefore the disclosure of segment information is omitted.

[Per Share Information]

FY2016		FY2017		
Net assets per share (yen)	953.01	Net assets per share (yen)	1,039.25	
Net income per share (yen)	138.43	Net income per share (yen)	119.13	

[Note] Basis for the calculation of Net income per share is as follows.
